EDITOR'S COMMENTS:

First, you will note that the permanent ads now have expiration dates on them. I hope, when I have time, to do the same with the membership list labels. I am well into the new membership list. I had hoped to be further along but the heavy correspondence during the holiday season slowed the progress. I spent all of last Saturday and part of Sunday just getting letters answered to members of ATCO. I'll keep plugging on it and will have more information in the next issue with regard to availability of ad space, etc.

I read with interest Binky's letter in this issue and as usual he leaves you hanging. What the heck is the new collecting interest you have Binky? You have my curiosity up. I sure hope it isn't stealing semi-trucks.

Poor Thaddeus caught it in the neck, but you have to remember if your going to sound off you can expect some heat.

Well, with this issue, we enter into our fifth year and it looks like a busy year. The best to all of you in this year of collecting and my personal thanks for all the nice cards and letters you sent.

Your Editor.

THE McILHENNY COMPANY OF AVERY ISLAND, LOUISIANA

by Cindy Grellman

Avery Island, located in Louisiana's fabled Cajun country, is really not an island at all. It is actually an upthrust salt dome about six miles in circumference, and is covered with woods, meadows, and fields. On October evenings, the fields burn with the reddish-gold of ripening peppers.

The peppers go to make Tabasco sauce. Although Tabasco originated on Avery Island more than a century ago, the sauce is now known all over the world. Tabasco is not the island's only product, or even it's most profitable one. The nation's first salt mine is here and it produces 1,500,000 tons a year. There are also quite a few oil wells on Avery, which extract more than a million barrels of crude annually. Despite these activities, the beauty of the land has been enhanced over the years, thanks to its conservationist owners. Avery Island is a home for more than 20,000 egrets, herons, alligators, snakes, muskrats, and deer.

The McIlhenny family has been living here since 1818. Avery Island may have remained a marginal sugarcane plantation except for an interesting discovery made in 1862. One of the family members tried to enlarge the salt spring and discovered pure mineable rock salt less than 20 feet below the surface. Since salt was needed to preserve meat for feeding troops, Union forces invaded Avery Island in 1863. The McIlhennys fled to Texas, only to return two years later to find a ruined plantation.

It was about this time that the peppers first appeared on the island. Exactly how they got there is not clear. Whatever the origin, Edmund McIlhenny knew what he wanted to do with them. He chopped the peppers, mixed them with vinegar and Avery Island salt, put the mixture in wooden barrels to age, and funneled the aged sauce into second-hand cologne bottles. He gave some of the bottles to friends, and his Tabasco sauce was an immediate success. In 1868, 350 bottles went to selected wholesalers. A year later, McIlhenny sold several thousand bottles for $1 each. By 1872 he had to open an office in London to handle the demand for Tabasco sauce in European countries.

Edmund McIlhenny died in 1890, and his Harvard-educated son, John, took over the family business. John spent much of his time traveling across the U.S. promoting the sauce. He gave away circulars and folders, as well as miniature bottles of Tabasco.

John was succeeded by his brother, Edward Avery "Ned" McIlhenny. Ned was more of a naturalist than a businessman. He established bird sanctuaries and imported rare species of plants to Avery. The production and sale of Tabasco suffered, however, and remained a 19th-century operation.

It wasn't until Walter McIlhenny (John's son, Ned's nephew) took over in the 1940's that the company was brought into the 20th century. He introduced modern management and marketing techniques, hired an advertising firm, and brought food critics to Avery Island. He gradually created a mystique about Tabasco, the pepper sauce made from an old family recipe and aged in oaken vats. Walter also experimented with accelerating the aging process, which would increase profits. The quality of the quickly aged sauce proved unsatisfactory, so the experiment was dropped.

The McIlhenny Company currently produces 187,000 bottles of

Tabasco sauce a day, or 50 million a year. Out in the pepper fields, a day's picking is finished by 3:00 o'clock in the afternoon. The peppers are weighed, and cash is paid to pickers on the spot. The weighing is always done by a McIlhenny family member. The number of pounds is punched into a ticket stub by a McIlhenny employee. The stub is given to the picker, who presents it to another McIlhenny employee who has a metal cashbox on his lap. A good picker earns about $30 for seven hours of labor.

Below are rubbings of 6 tokens issued by the McIlhenny Company of Avery Island, Louisiana. The tokens were used to pay pickers from 1903-1922, a method little different from the ticket-stub procedure used today. Some were issued for packing seafood and vegetables, while others were simply "good fors" to be redeemed at the company store. They represent an important aspect of a famous family business that hasn't changed its product or procedures much in the past 100 years.

Dear Bill:

I guess in the November issue of ATCO I said something about a West Coast investor I shouldn't have because someone named "Tedium" got hot.

I'm sure having lots of fun with my new collecting interest. Since I talked with you the other day, I have picked up several nice pieces (three with the outline of three different states and one with my name on it). Competition is nil because no one knows I'm collecting these items.

Back to Tedium and his "Sour Grapes" article. I won't apologize for being poor, living from one pay check to the next. We can't all be comfortable. If I miss one days work, I have to stand in the soup line. I may be an "Old Timer" but I don't think I am living in the past --- I just bid value. The token that was bid up over $400.00 did not bother me. In fact there were lots of laughs about it. As for the bids being at 10% increases --- this is not true because $30.00 would not be 10% of what the trap was set at.

I won't comment on Tedium not sharing information on tokens. Even Pig (you remember him, my swamper, who has the brains of a demented worm) knows that sharing information is what makes the collecting of tokens a success. Where does he/she think a token book comes from?

Well, I'll Ten-Four for now as I have to be on the road early in the morning.

Binky

(Editor's Note: Binky, the name is Thaddeus NOT Tedium. The dictionary defines tedium as - - it disgusts, offends, the condition of quality of being tiresome, wearisome, boring, or monotonous).

Dear Fellow ATCO Members,

I do agree with Dana Roberts comments about the word processor. I couldn't handle my own correspondence and bookkeeping tasks without our own system. Such a system is able to handle type-setting and membership/mailing lists as well as correspondence. With a disc storage system, it would eliminate some of the need for paper filing facilities, also. Our own (professional) system, in addition to the above, has a built-in hyphenating dictionary, dual disc (8") drives and a letter quality printer. It was very expensive but I thank Heaven, every day, that we, finally, made the decision to buy it. We (ATCO) should be able to purchase a very good system for $3000 to $4000 including accessories.

I don't know how you (members) feel about word processors nor whether many of you even know how to use one but I do know that anyone who can type and read simple instructions can learn how to use one, in a very short time. Our Editor mentioned the possibility of acquiring such a system when the membership reaches 1000. I, honestly, don't see how he is able to handle the workload (with such obvious efficiency), now. Having some past experience with editing and type-setting the bulletin (and mailing list) for our regional association (only 8 to 12 pages and about 300 members), I have some feel for the amount of effort it takes to accomplish such a task. How is he going to do it, when membership reaches, only - say, 800?

This letter will serve as one example of type-setting on a word processor. This printer has eight other, letter quality, type faces, for variety (or emphasis). Note that the right hand margin is justified (even). This feature is built into the computer and is facilitated by the ability to hyphenate words via the built-in dictionary which, also, helps to correct spelling errors. Single words or whole pages can be **emphasized** without manual back-spacing and underlining is accomplished by a simple command. And it can produce such characters as ©, °, >, <, §, ¶, ß, µ, Ø, £, †, ®, \ , ™ and a few others, without mechanical manipulation. For an editor, the best feature is the ability to edit (and mechanically fit) the work before committing it to paper.

In order to reduce the workload of our dedicated (and un-paid) editor; and to modernize our already great organization; I propose that we initiate a pledge fund to purchase a computer/word processor system which will handle the tasks of correspondence, type-setting, and membership/mailing lists (before our loyal Editor finds himself "bogged-down" and unable to handle the job). Wouldn't a pledge (or an assessment) of $10 or $15 from each member cover that? You have my pledge. How many others?

Yours in collecting,

Glen

LETTERS TO THE EDITOR:

Dear Bill: This is a response to "Sour Grapes and Other Inedible Things" by Thaddeus. My being new to token collecting means I have no memories of how it used to be so I'm not prejudiced by them, but I did collect coins for twenty five years, please don't let that happen with tokens! Insofar as auctions go, if everyone has the same set of rules I see nothing wrong with phone calls, at least the way one West Coast Dealer outlines them in his bidding instructions. I did get upset over one dealer sale earlier this year where bids were to be in even dollar amounts.

But, to address what I feel is the most important part of the article - I believe that if you keep all of your knowledge to yourself you should have pockets in your shroud, then you could take your information and your tokens with you! I've only been collecting tokens for a couple of years, but I've asked a lot of people for a lot of help and can only think of one person that didn't respond and I'd like to think that he didn't get my letter rather than his using the samp for something more important.

I think if we can get more people interested and involved there will be more tokens discovered, uncovered and recovered and also more information about them and the tokens you have in your collection. Not only that, but, there just may be one of these people who would be interested in your tokens, just in case you don't take them with you.

Thaddeus makes some good points. I'm sorry his experience has given him his scrouge outlook.

In closing, I feel we can have comaraderie along with competition and in helping others we do in fact help ourselves by sharing knowledge.

Jack Glass

Dear Bill: I do have a comment on the comments of "Thaddeus". First, I don't think people who are afraid to sign their own names have a right to be hear-or read. I don't care if it is Binky, or Thaddeus. Second, I think it particularly unfair for Binky-Thaddeus types to attack in print those people who have used their own names. Thirdly, there may be a full time token dealer who makes a living at it, but I don't know any. The ones I know have - as we used to say in the service - "money on the outside", whether inherited or made outside of the token trade. I don't know them all but I will bet a "Good For 5¢" that the author of the "Thaddeus" piece falls into the "money on the outside" category. I would like to suggest that as editor, you invite comments from ATCO members, but require people to use their own names. If a person isn't willing to stand behing his or her own snide remarks, the remarks shouldn't be published.
Sincerely,
R2 D2 (a/k/a) E. Donald Kaye)

(Editor's Note: I'm afraid that Binky will be with us forever. I've received dozens upon dozens of letters about Binky - - he is liked. I don't think that Thaddeus will last to long from all the letters and phone calls I've gotten about him.)

Mr. Wm. Clapper
ATCO
P.O.Box 1573
Sioux Falls, S. Dak 57101

Dear Bill,

There are two subjects I wish to cover. First, I have decided to hold monthly, 25-lot auction sales in ATCO and am enclosing camera-ready copy and check for $7.50 for the first one. Look to a monthly ad from me in the future.

Next, and you can print this if you like, I've read with interest, and sometimes amusement, the comments and gripes from ATCO members; I've made my share of both. I see a Binky-Thaddeus feud a-brewing and this is good. This sort of dialogue strengthens the hobby.

As far as prices go, I believe that if someone is willing to pay $400 - or $1000 - for a token, why shouldn't he (or she) be allowed to do so? If they pay too much for a token let him or her try to get that money back if and when they try to sell them. In the meantime there are plenty of other tokens around at much more modest prices, so that a buyer can enter any game he wants to at his price level. As for me when a token I want goes into a higher price bracket than I want to pay I look for another token that is in the right price bracket. Personally I collect for the pleasure I get from the hobby and not to amass a collection that is "better" than the next collector's "collection".

Sharing knowledge strikes a nerve in me because here is where you separate the hobbyist from the opportunist. I was attracted to token collecting because I like to research them and share my knowledge with other collectors. I am happy when collectors share their knowledge with other collectors, but I am a realist and I know that not everyone will do so. I know there are "collectors" who locate hoards of tokens but don't publicize the fact so as to keep the prices high; who learn the origin of a maverick and don't publicize it because they don't own the maverick and hope to get it cheaper while it is unattributed that it would later after its attribution is generally known; who -- the list could go on. We have to face reality - but through the years we all develop our own lists of collectors whose reputation preceeds them.

Finnaly, relative to auctions, I believe a bidder should bid what he wants to pay for a lot - period. If he gets the lot fine; if not he can bid higher the next time he sees the token in an auction. If a bidder wants to top his own bid in a second letter (if there is time) thats OK. But none of this telephone bid and reduced bid nonsense. I intend to run my auctions on that basis.

Now its time to get off the soapbox. I hope your holidays were good and that 1986 will be a happy and healthy one.

Best regards.

Sam Ruggeri

Hello Greg,

Rec'd your Wis. for Iowa swap offer this morning. Six of the seven Wis. tokens you have are of no interest to me, the other - I already bid on.

I will trade my lot 18 and lot 24 for the Merrillan, Wis I already bid on. The other lots (12, 13, 20, 21 & 25) you may want to resubmit cash bids unless you have something else in Minn or Wis. to offer.

I hope I haven't complicated things.

Thanks,

Wade

ook offer & bid 2 35 on 12, 13, 20 & 21 and 4 60 on #25

Canadian -- Yukon Territories

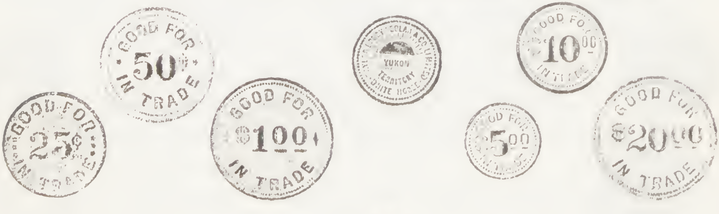
Excerpted from an article in Nov. ATCO:

Taylor Drury Pedlar & Co. Limited

"A brief history of this well known Yukon trading company was published in the C.N.A. JOURNAL of March, 1967. The article recorded how Messrs Taylor and Drury met while en route to the Klondike but learned of a gold rush at Atlin, B.C. and opened a business there. In opposition to them were Whitney and Pedlar. Both firms moved to Lake Bennett during the construction of the White Pass and Yukon Railway to do business with the temporary population of 10,000 at Bennett City. In July, 1900 they took the first through train to Whitehorse the terminal and soon both firms were doing business there.

"They remained in opposition until 1912 when Taylor Drury Pedlar & Co. Limited was incorporated. Using the steam-powered "Kluahne" on the Yukon river system the Company opened and supplied trading posts at 18 locations, although no more than 12 were in operation at any one time. Tokens were used at these posts in order to avoid the need to hold large sums of money at each one. Acceptance of the tokens was so great that the native people hesitated to accept "steamboat money" from people travelling on the boat. While the name was changed to Taylor & Drury Limited in 1921, the tokens remained in use in some posts as late as the 1940's."

* Whitehorse	Taylor, Drury, Pedlar & Co. Limited/ 25¢, 50¢, $1.00, $5.00, $10.00, $20.00, Set of 6 Tokens ------------------------------	$182.50
	Singly, the $10 or $20 token, Brass (nice Condition) each -------	54.75
	25¢, 50¢ or $1, Aluminum, each (some wear, especially on the 25¢ piece) --	36.50



I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICES for these items. My primary interest is in building a fine collection and I've been buying alot of nice pieces ... so I must be doing something right. Please write or call me if you think you have something of interest to me. I have a substantial trading stock ... but of course I prefer to purchase outright.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

TAVERNE
DEGREMONT

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about [illegible].

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

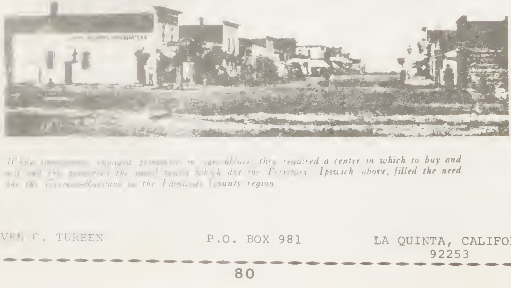
Third Street in Yankton in 1886—the main thoroughfare in territorial times, this street witnessed many pioneer scenes.



While immigrants engaged primarily in agriculture they required a center in which to buy and sell and this promoted the small towns which dot the Territory. Ipswich above, filled the need for the German-Russians in the Edmunds County region.

TRAVIS ROBERTS SERVES A DOUBLE CAPACITY AS A DIRECTOR AND AS CHAIRMAN OF THE ETHICS COMMITTEE!!

SOME NOTES THAT CAME TO MIND AT THE LAST MOMENT. I SAY LAST MOMENT BECAUSE SOME OF YOU DEADLINED ME AGAIN. LAST MINUTE ADS ARRIVED THE LAST DAY AND IT WAS ONE HARD JOB GETTING EVERYTHING SORTED AND ARRANGED. THE LAST TWO DAYS ARE ALL WORK IN GETTING PAGES NUMBERED AND ARRANGED SO THAT ALL SHEETS COME OUT BY FOURS. FOR EXAMPLE, THIS ISSUE HAS 68 PAGES. IF, AT THE LAST MOMENT, A ONE OR TWO PAGE ADS COME IN THERE IS NO PLACE TO PUT IT AS IT WOULD REQUIRE TWO OR THREE MORE SHEETS TO MAKE IT COME OUT. SO, IF YOUR ARRIVES LATE YOU CAN EXPECT TO SEE IT IN THE NEXT ISSUE OF ATCO.

AGAIN, WITH REGARD TO THE MAIL WHICH I'VE MENTIONED IN MY COMMENTS IN ANOTHER AREA OF ATCO, WE DO NOT CONTROL THE MAIL. ALL COPIES OF ATCO ARE MAILED FROM HERE AT THE SAME TIME AND ON THE SAME DAY. DON'T HOLLER AT ME, HOLLER AT YOUR POST OFFICE IN YOUR STATE. IF YOU CONTINUE TO GET YOUR ATCO LATE AND YOU WANT FIRST CLASS MAIL YOU CAN JOIN THOSE WHO PAY $7.50 EXTRA A YEAR TO GET FIRST CLASS MAILING. O.K.? ENOUGH SAID!

J.C. Irwin and The Old Corner Saloon

1879-1903

The researching of an old trade token can be as rewarding as the initial digging of one from an old dump, detecting one with a metal detector, or buying one at a coin show.

On a recent trip to Independence, California I stopped in the Eastern California Museum to research an old token embossed: "Old Corner/J.C. Irwin/Independence, Cal./L.H. Moise S.F." Back: "Good For 1 Drink". The staff at the museum wasted no time in producing numerous photographs and newspaper articles on J.C. Irwin and The Old Corner.

According to his obituary, John Clemence Irwin was born in Covington, Kentucky in 1841. He was one of Morgan's raiders during the Civil War and took part in their raid on Ohio. After the war, Irwin drifted west and was one of the starters of the Alder Creek gold rush of Montana. In 1871 Irwin came to Inyo County and followed the mining boom camps of Cerro Gordo, Panamint City, Bodie, and finally settling in Independence in 1879. He bought the Old Corner Saloon, which was formerly known as the Tom May Saloon, and continued business there until his death in 1903.

The Old Corner was located where the present post office now stands on Hwy. 395 in downtown Independence, according to Emie Mairs, an old time resident of Independence. The Old Corner was later under the ownership of Jack Gunn, who inherited the saloon from Irwin. He thinks it was torn down in the late 1920's.

Dear Bill:

Sorry for the mix up on the name THADDEUS. I really didn't pay much attention to his name. I felt he was just a dreamer and you know even a mouse dreams dreams that can horrify a cat. Hopefully, some day he will quit his dreaming and enjoy the camaraderie of the token collectors.

Bill, I forgot to tell you what happened to me on New Year's Eve. Pig (my swamper) fixed me up with a blind date -- his sister. She looked exactly like Pig except her sideburns were shorter. One of the truck stops that we frequent had a dance and Bar-B-Que and we had a ball. She got drunk and got into a fight with a long-haul driver and we had to leave. (I might say it probably saved his life). As we left the dance, I picked up another specimen for my new collection and as luck would have it, it was from the guy Pig's sister almost whipped.

I agree that it is unfair for Thaddeus types to attack in print those people who have used their own names. I try not to use anyones name when discussing problems with you. My letters are to you Bill, you can print them if you wish - you don't have to. If the membership comes down on you, just don't print my letter - simple. You don't need the flack.

The next time I catch someones phone unattended I will call you and let you know what my new collecting interest is. I had rather not put it in print.

Ten-Four,

Kinky

(Editor's Note: Kinky, you must be reforming???? I note that you cut your sideburns and aren't smoking???. What's up.??? AND, WHAT IS THAT NEW HOBBY?????

EDITOR'S NOTES:

FIRST, ATCO was mailed 4 days late because of the size. That caused me no end of misery from the phone calls - "Where is my ATCO". They got me out of the shower, away from dinner, shampooing my hair, etc.

It won't take to many of those calls until you'll be looking for a new editor. I can't help it if the issues are large and it takes longer to get them out. After all, I'm not full time with ATCO. I have to make a living and take care of two boys. When you decide that you want a full time editor, then up the dues to about $30.00 a year.

NEXT, WHERE IS THE NEXT ATCO MEET GOING TO BE? ANY IDEAS??? ANY VOLUNTEERS? SEND YOUR THOUGHTS TO TRAVIS ROBERTS, P.O. BOX 1168, BELLAIRE, TEXAS 77401

ONE OTHER THOUGHT - - SOME OF YOU MIGHT START TALKING TO CHUCK LITTLEFIELD AND SEE IF HE'LL HANDLE IT AGAIN. FROM THE COMMENTS I'VE HEARD HE DID A SUPER JOB?? WHAT ABOUT IT CHUCK?????

LETTERS TO THE EDITOR:

Bill: We have survived Binky for a couple of years, and now comes Thaddeus. Before long, the title page of ATCO is going to read like the cast of characters from Snow White and the Seven Dwarfs. Seems to me that some members have a lot to say (mostly sour grapes), but don't have the guts to use their real name. Rather childish for supposed adults, wouldn't you say?

Bill Massey

Editor's note: Now, now, Bill, where is your sense of humor?

* *

Dear Bill: The Arkansas Token Catalogue has been delayed until sometime late this spring. It seems when Paul Cunningham moved to Hawaii it put everything behind. All the photographs have been completed and some of the book is typeset, but still a ways to go yet. Anyway, it won't be as long as it has been getting it ready.

T. H. Robinson

* *

Dear Bill: The February issue was great - best yet. I spent hours on it and got off a lot of letters. It's encouraging to see trader's page ads for different collecting specialties. Most all of use have an odd (printable) interest here and there.

I'll pledge $15.00 FOR AN ATCO WORD PROC. SYSTEM. AT WORK WE JUSTIFY THE COST THROUGH ELIMINATION OF EXTRA MAN POWER COSTS. GLENN ROME IS RIGHT ABOUT ITS SCOPE TOO.

MIKE O'BRIEN

(Editor's Note: Thanks Mike - - we have received other pledges and also about $30.00 in cash so far. I'll not push this hard, but if the memberships wants to purchase one for me thru donations and pledges I'll certainly not turn it down!!!)

While pre-statehood tokens have been my main collecting interest for many years, I am also interested in just about anything pertaining to the Alaska-Yukon-Pacific Exposition held in Seattle in 1909.

I have very little trading material other than Alaskan.

FOR THE LOVE OF CARDBOARD

Bill Massey

The recent interest in cardboard trade checks prompted me to document those in my Quincy, Illinois collection.

These are undoubtedly the least durable of the "Good For" varieties as we know them, and certainly valued additions to any large collection.

Of those shown, these merchants also issued metal tokens: Gards Men's Grill, Telly's Tavern, Arcade Co., and Union Cigar Store.

Deter's Dairy and the J. J. Flynn Bottling Company are still in business in Quincy, and the Deter's Dairy also used a plastic bottle check.

Gard's Men's Grill was the most prolific issuer of Quincy tokens, with at least a dozen varieties and half a dozen denominations catalogued.

The Hoop-La's cardboard, in red has recently turned up in quantity, but all of the others, even those more recent, are rather scarce to rare!

I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICES for these items. My primary interest is in building a fine collection and I've been buying alot of nice pieces ... so I must be doing something right. Please write or call me if you think you have something of interest to me. I have a substantial trading stock ... but of course I prefer to purchase outright.

MILITARY TOKENS - any old token (pre-1930) from forts or military units throughout the U.S.

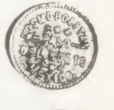
ALASKA TOKENS - cataloguing $50 and up in Benice. Will pay $3,500 for the first McCarthy Alaska gold nugget token offered to me (cats $500). Will pay multiples of Benice catalogue value for many other rarities. Also want YUKON tokens from Dawson and White Horse.

NEW MEXICO TOKENS - nice old good-fors. Any and all except the most common. There are many N.M. tokens worth $100+ to me.

NEVADA TOKENS - nice old brass, aluminum or white metal good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100++ to me. Many are "dug" so don't worry about condition ... I want 'em.

TERRITORIAL TOKENS - Good-fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr(W.T.) and some Okla and Indian Terr (O.T. and I.T.) tokens. Paying $500 and up for most D.T., M.T., and W.T. tokens (except Carter, Camp Brown, FJD, Ward, Wanless and McCormick). Also want YUKON TERR tokens.

MEXICO TOKENS - brass or German Silver (copper nickel) tokens from Mexican towns like Porfirio Diaz, Paso Del Norte, Nuevo Laredo, etc. with the word "Saloon" or other English words and denoms like 12½¢, 6¼¢, One Drink, etc.



TEXAS PICTORIAL TOKENS - Will pay TOP DOLLAR for brass or white metal Heidemann-struck pictorials depicting ELEPHANTS, steers, horses, lady's leg, buildings, etc.

POST TRADER and ALL STATES' MILITARY - any old good-for saying "Trader" or "Post Trader". And old fort, canteen, cavalry and other military tokens from ANY state. I've expanded my collection beyond just "Western" military.

SALOONS and INTERESTING OLD MAVERICKS - Paying top dollar for attributed or maverick saloons and ornate or pictorial mavericks depicting steers, burros, ELEPHANTS, horses, roosters, etc. I collect Saloons from ANY state whether it be Georgia, Texas, Wyoming, Virginia , Colo, etc.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.

HUDSON'S BAY COMPANY -- YORKTON, SASKATCHEWAN

In [illegible] the Hudson's Bay Company opened a small store in Yorkton to provide a better service for settlers in the area. Up to this time the settlers obtained their supplies from Winnipeg and had found this to be inconvenient. The Company's business expanded rapidly in the Colony and resulted in their having to enlarge the premises and to eventually construct a new store.

"The tokens were issued under authority of the local Manager, who used them primarily to pay for produce brought to the store by farmers in the area. Old-time residents of Yorkton recall the tokens and are of the opinion they were in use about the time of the first World War."

from Medals Tokens and Paper Money of the Hudson's Bay Company
by Larry Gingras, FRNS, FCNRS

It is our understanding that this lot of tokens was in the same family for a long time until they were divided into two lots as they were handed down to the descendants. One half of the hoard surfaced a little over 15 years ago and was bought by Tom Winwood of Victoria Coin Shoppe -- about 25 complete sets. The last of these sets were sold just last year.

The other half of the hoard surfaced recently. Fortunately, we were able to obtain these last few sets of the historic Hudson's Bay Co. If you haven't already obtained a set, we suggest you contact us now -- a reasonable price of $216.00 for the 5 pieces.

THE APRIL ISSUE IS A SMALL ISSUE. THIS MAY BE BECAUSE OF THE WEATHER WE HAVE HAD AND ADS DID NOT GET TO US IN TIME. YESTERDAY WE HAD SLUSH TO OUR KNEES - UGH! AND TODAY IS FROZE, WHAT A MESS.

ALSO, DUE TO THE PAGES COMING OUT AS THEY DID I HAD TO PULL ONE GOOD ARTICLE WHICH WILL BE IN THE NEXT ISSUE.

I MANAGED TO GET SOME MORE WORK DONE ON THE MEMBERSHIP LIST AND I SHOULD HAVE THE THING COMPLETED BY NEXT ISSUE OR AT LEAST AN ANNOUNCEMENT WITH REGARD TO AVAILABILITY OF AD SPACE, ETC.

BINKY GOOFED AND DID NOT GET HIS ARTICLE IN AND THERE WAS NOT ENOUGH SPACE FOR MY AD, BUT THAT GOES WITH THE TERRITORY, I GUESS.

BEAR WITH ME AND THE NEXT ISSUE WILL BE MUCH BETTER - LARGER AND WITH A COUPLE OF GOOD ARTICLES.

GOOD HUNTING!
Your Editor.

ANOTHER GREAT LOSS TO THE HOBBY!

JOHN CALHOUN PASSED AWAY

I WAS JUST LEAVING FOR THE PRINTERS WHEN MIKE FRITZ CALLED TO TELL ME THAT JOHN HAD PASSED AWAY.

HE WILL BE MISSED. JOHN AND I HAVE KNOWN EACH OTHER FOR MANY YEARS AND I ENJOYED HIS LONG PHONE CALLS.

AN ARTICLE ABOUT JOHN WILL BE IN THE MAY ISSUE.

MIKE FRITZ WILL BE HANDLING THE MARCH AND APRIL MAIL BIDS OF JOHN. ALSO, MRS. CALHOUN HAS REQUESTED THAT YOU NOT MAKE PHONE CALLS TO HER FOR THE MOMENT.

LETTERS TO THE EDITOR:

Dear Bill: I got the impression from the last ATCO that some of our members are getting you down. Deadline 'phone calls, etc.

Please don't let it get to you. Deadlines are deadlines. Just hold copy for the next issue. It's our own fault if we get our ads to you to late, so don't let it bother you. You're the editor, with all the work to do - - you're the boss and we're behind you 100%. In fact, if you ever feel like it, please phone me collect for any reassurance. ATCO's been the best help to me on U.S. tokens for the last 4 years and I sure do appreciate the hard work and all the help you've given the hobby.

Also, many thanks to people like Dick Worthington and the rest of the ATCO executive!!!

Sincerely, John Cheramy

Editor's Note: Thanks, John, I needed that. Although, I have received many, many nice and encouraging letters there are times when I do get down a little.

The night that I was getting ATCO ready for the printers I had tons of mail that came in that same day. Too, my younger son hurt his knee in basetball and had an operation. He was home and down in a brace and I was worried about him. I guess there are just times when things pile up higher than one wants to see them pile up.

Anyway, I worked through that bad period and all the energy and enthusiasm are back.

So, guys, please don't deadline me with loads of work on the last day. It's hectic enough trying to get ready for the printers. Mail your ads in early!!!!! O.K.?

LAS VEGAS BOTTLE SHOW, FEB '86 - A REAL WING-DING

By Alan Weinberg

I've just returned from the Las Vegas Bottle Club's annual show. Every year token collectors from California, Arizona, Nevada and some bordering states converge on this city for the antique bottle show put together so ably by the local bottle club.

It was like a mini-ATCO convention. There was Ted Tibbets and John Tibbetts (not related), Bill Wright, Tom George, Noll LaDue, Martin Kenney, Dick Ainsworth, Sam Michael, John T. Hamilton, Dave and Phil Desmond (father and son), Jack Haddock, Howdy Herz, Bill Johnson (all the way from Klamath Falls, Oregon) this author and so many others too numerous to mention.

It was a very pleasant and busy three days of hob-nobbing, trading, buying and selling and much exchanges of information.

I acquired a Rochester, Nev. Saloon token. Sam Michael a Skull Valley, Arizona token. Martin Kenney a Mary Mine, Nev. Saloon token, Noll LaDue a beautiful old Virginia City, Nev drink token, etc.

Also, the Nevada book (extensive and sophisticated enough to project an approx. $50 retail price) moved ever closer to publication within the year. Collectors en masse cooperated with ATCO member and co-author Howard Herz' photography efforts. The goal-within reach-is to photograph every known token for the book. This will be the premier book on a State's tokens with rarity ratings and values, approx date of issuance, historical data and many, many pictures.

I just cannot encourage ATCO members enough to attend both the Las Vegas and Reno Bottle shows. They are folksy, well run, fruitful in additions to one's collection and just plain fun!!!

Reno is scheduled for, I believe, June. Y'ALL COME, HEAR?

I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICES for these items. My primary interest is in building a fine collection and I've been buying alot of nice pieces ... so I must be doing something right. Please write or call me if you think you have something of interest to me. I have a substantial trading stock ... but of course I prefer to purchase outright.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

B. S. ("Bigshot") Investor, 23 Connecticut General St., Mesquite Mountain, Calif.

As you might guess, the above ad is counterfeit, and is presented only to illustrate a point. This type of "collecting" activity is tearing away the more noble foundations of such organizations as ATCO & TAMS. One principle purpose of these collecting fraternities is that of promoting the free sharing of ideas, theories, and historical data that helps to categorize and better define the types of tokens we collect. The TAMS organization in the past has been very effective in meeting this goal - but I suspect that much of this success will become a thing of the past. I personally have a number of fine articles that could be submitted for publication at the drop of a hat. The contents would undoubtedly make some interesting reading and would contribute substantially to various aspects of toking collecting.

However, there would be an undesirable repercussion; and it can't be better illustrated than by the preceding mockery ad. If I have been collecting a particular type of token for a number of years, I thereby am qualified to speak with authority through an article on the subject. And the opportunity to share my findings with others can be inherently rewarding, from the academic achievement perspective. But why run the risk of educating some so-called "collector/investor" who will undoubtedly interfere with your collecting interest in the future?

Now if such an article could result in the growth of our hobby, then that would be a very positive outcome. I have heard much concern expressed that token collecting will soon decline, resulting in a general "crash" of market prices. The initial symptoms which have lead to the decline of other once prolific hobbies are now being witnessed in our token circles. The only way to reverse the inevitable decline is to bring in new collectors. Not collectors that loose interest after six months, but serious collectors who will progress in the hobby and consequently will be someday qualified (and willing) to share additional knowledge. This healthy growth of our hobby can be promoted to a significant degree by more good articles and books on token subjects previously unpublished.

The ongoing battle between Thaddeus and Binky is admittedly humorous and entertaining. But when taken at face value, it expresses a growing problem which threatens the future of token organizations like ATCO. Why should someone advertise his interest in some specialty of tokens, when it invites a so-called "collector" (speculator) to jump in and compete? Prices on tokens are undefined and uncertain at best. Why make the matter worse by advertising? Or by writing good articles and books? The really serious collectors will soon find their own answers - by persistence they will solve the riddles of their collecting specialty. This approach would leave the speculators in the stone age of their knowledge. A fitting end to the speculator/antagonist - but a sad end to the hobby organization.

Since we seem to be using pen names on our literary works, I sure don't want to be an exception.

POST TRADERS AND THEIR TOKENS

The tokens issued by post traders[1] from after the Civil War until the 1890's are a tangible reminder of and link to that exciting and sometimes turbulent period in our young country's history, a period when the west was being won and civilized and when the Indian was struggling unsuccessfully to preserve his land and way of life.

Of the many post traders, tokens from only a small percentage are known. More may be discovered by the ubiquitous metal detector, from unexpected sources and from maverick tokens newly identified as those of post traders. But the fact remains that post trader tokens are, with few exceptions, rare and many examples are unique. Curto[2] states that the supply of tokens at small posts was carefully controlled and that when a change in ownership took place, the traders generally redeemed and destroyed their tokens.

The post traders had an important role in the U. S. Army's plans to supply many elements of the frontier population: the commercial needs of soldiers stationed in far flung frontier outposts, pacified Indians who had conceded defeat by retiring to government reservations, transcontinental emigrants and settlers. A forerunner of the post traders were the sutlers, licensed by the War Department as early as 1824 to serve the army. The sutlers set up shop at posts and came into their own during the Civil War when sutlers wagons followed the marching armies from battlefield to battlefield. Francis A. Lord[3] records about 800 sutlers in the Civil War period, a listing he suggests is incomplete.

In response to the widespread corruption resulting from the practice of unwise political appointments in the sutler system, an Act of Congress[4] abolished the office of sutler in the army and at military posts, effective July 1, 1867.. In the place of the sutler, the subsistence department of the army was authorized and required to furnish such to the military articles as were from time to time designated by the inspectors-general of the army. To accomplish on short notice this formidable task, Congress had made no appropriation. The Congress in its wisdom, or lack thereof, perhaps was on the right track in developing a system for the supply of the non-military needs of the soldier but this new attempt, that of eliminating the sutlers and replacing them through the efforts of the subsistence department, was doomed to failure because of too little planning or thought and with no appropriation of funds.

In a factual, but one can image plaintive statement in his report to the War Department of 1867,[5] the Commissary-General, who had rather suddenly been given the task of replacing the activities and services of a large group of experienced sutlers at many different military establishments, pointed out that the assignment was difficult and expensive and that no funds had been appropriated. The Commissary General's problems were partially solved in a portion of the country for which he was responsible by a Public Resolution dated March, 1867,[6] which permitted sutlers to continue to trade until further notice, but under certain conditions. The sutlers involved were those at frontier military posts described as not in the vicinity of any city or town and situated at any point between the one hundredth meridian of longitude west from Greenwich and the eastern boundary of the State of California, and further, that the commanding general of the army feels such a establishment is needed for the accommodation of emigrants, freighters, and other citizens. And they were to be called traders, not sutlers. For the probable turmoil created by all of the Congressional operation perhaps the one significant observable chance was in the new name for the sutlers---traders. The needs of the soldier were not mentioned; perhaps they were inferred. The position of the army installations outside the specified area is not clear; but perhaps Congress and the War Department felt such military establishments within the settled regions of the United States needed no such provisions.

On the frontier the result of these Acts of Congress was to put many sulters back in business but under the new name of traders or post traders. An order[7] dated July 19, 1867, provided for competition for these sutlers, now newly named traders, in that the commanding general could now permit by appointment any persons, without limit as to number, to trade in the specified area, subject only to such regulations and restrictions as may be imposed by department commanders.

Then came an order[8] in 1870 which repealed the Public Resolution of March, 1867, and decreed among others, two changes, one of which turned out to be most significant. The words defining the location requirements were retained regarding not being in the vicinity of towns and cities but eliminated the hundredth longitude and the eastern boardar of California as requirments. Thus we find post traders not only in California but now further east. But of greatest importance, as will be seen, the order established that the Secretary of War, rather than the Commanding General of the Army, was to appoint traders.

The passage of this act and for several years after, and the temptation offered by the patronage available to the Secretary of

War, there developed a situation in which post traderships were awarded to friends or relatives or sold to the highest bidder, not an action conducive to efficiency and effectiveness, and reminiscent of the action that lead to the demise of the sutler. Through this practice, quite illegally, several traders were driven out of business including, for example, the old and successful firm of Durfee and Peck. This became a full-blown scandal in Grant's administration involving his Secretary of War, William W. Belknap.[9]

Certainly the scandles perpetrated under Grant's administration in which appointments of generally unqualified political cronies, relations and friends did little to enhance the performance and reputation of the activity of post tradership. Sutlers were disliked, if that is a strong enough description, during the Civil War and the post traders quickly attracted similar animosity, not surprizing when we consider that many of the post traders were but former sutlers.

In a Congressional Act of 1876[10], the authority of the Secretary of War to appoint traders was turned over to a post's "Council of Administration" (a group of officers appointed by the post commander) the action of which required only the approval of the post commander. This Act was modified by an Army Circular[11] specifying that post traders must actually carry out the business of trading themselves and were required to habitually reside at the station to which they were appointed; and the traders could not sublet his position; and commanders were required to report irregularities. By reading the various acts, one can sense the dissatisfaction with the system. Other Circulars and orders followed which disclosed other points of conflict and concern about the role of the post trader and his service to the military.

Perhaps in protest for the activities of the post traders, or in the spirit of entrepreneural zeal, a group of officers in Vancouver Barracks in 1880 organized, as an experiment, an operation which they called a canteen, a designation used earlier and afterwords, in which supplies and goods were purchased by the canteen and sold directly and without profit to fellow officers. The idea was an instant success and it spread to other posts; and later, sales to enlisted men as well as to officers were sanctioned. At last the post trader had effective competition and many traders, seeing the wave of the future, abandoned their posts. The canteen idea was established by the Army in 1889 and went into full use in 1891.

Then in 1893, Congress decreed[12] that no vacancies in the ranks of post traders would be filled nor would new appointments be made. The post trader had served an important part in meeting the needs of soldier, emigrant, freighter, citizen and Indian but was now to fade away. How many post traders then in operation stayed on and for how long, after this Act and the growth of the canteen, may not be known. And soon to be developed was the Post Exchange. A statement in the Report to the Secretary of War for 1899 may tell the story: "The exchanges [PX] have largely replaced the old and objectionable post-trader store at military posts."

In 1895[13] the army initiated the Post Exchange as the successor to the canteen. The Post Exchange or PX as it is and has been known by millions of servicemen worldwide grew to be the largest retail organization in the world and is today an important and vital part of the armed services. When the position of sutler was abolished in 1866 and the Commissary Department was instructed to supply the soldiers with their non-military needs, the army was on the right track in its goal of an desire to supply servicemen with their needs, but there were to be a number of tries along the way of success -post traders, canteens, and finally the correct answer--the Post Exchange.

Below I have listed post trader tokens known to me. This list is as complete as the data available to me. There may be mistakes and certainly there will be additions. I have used as source material Curto, Walker and private communications. With a primary interest in Indian trade tokens, I was interested to find that Curto[14] suggests that the majority of post trader tokens are also to be listed as Indian trade tokens.

However, see Report to the Secretary of War for 1893, page 72, "The post exchange system continues to progress satisfactorily, and notwithstanding periodic misrepresentations assailing it, is considered by the majority of officers, including post commanders, as having a decidedly beneficial influence on the discipline and morals of the rank and file of the Army. There is no reason to doubt that, as time and experience indicate what additional measures should be adopted in order to perfect the management and conduct of post exchanges, the system will be regarded more and more as a happy substitute for the old post-trader establishment with its train of almost ineradicable evils, and that it will fully realize the benefits anticipated at its adoption."

I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICES for these items. My primary interest is in building a fine collection and I've been buying alot of nice pieces ... so I must be doing something right. Please write or call me if you think you have something of interest to me. I have a substantial trading stock ... but of course I prefer to purchase outright.

MILITARY TOKENS - any old token (pre-1930) from forts or military units throughout the U.S.

ALASKA TOKENS - cataloguing $50 and up in Benice. Will pay $3,500 for the first McCarthy Alaska gold nugget token offered to me (cats $500). Will pay multiples of Benice catalogue value for many other rarities. Also want YUKON tokens from Dawson and White Horse.

NEW MEXICO TOKENS - nice old good-fors. Any and all except the most common. There are many N.M. tokens worth $100+ to me.

NEVADA TOKENS - nice old brass, aluminum or white metal good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100++ to me. Many are "dug" so don't worry about condition ... I want 'em.

TERRITORIAL TOKENS - Good-fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr(W.T.) and some Okla and Indian Terr (O.T. and I.T.) tokens. Paying $500 and up for most D.T., M.T., and W.T. tokens (except Carter, Camp Brown, FJD, Ward, Wanless and McCormick). Also want YUKON TERR tokens.

MEXICO TOKENS - brass or German Silver (copper nickel) tokens from Mexican towns like Porfirio Diaz, Paso Del Norte, Nuevo Laredo, etc. with the word "Saloon" or other English words and denoms like 12½¢, 6¼¢, One Drink, etc.

TEXAS PICTORIAL TOKENS - Will pay TOP DOLLAR for brass or white metal Heidemann-struck pictorials depicting ELEPHANTS, steers, horses, lady's leg, buildings, etc.

POST TRADER and ALL STATES' MILITARY - any old good-for saying "Trader" or "Post Trader". And old fort, canteen, cavalry and other military tokens from ANY state. I've expanded my collection beyond just "Western" military.

SALOONS and INTERESTING OLD MAVERICKS - Paying top dollar for attributed or maverick saloons and ornate or pictorial mavericks depicting steers, burros, ELEPHANTS, horses, roosters, etc. I collect Saloons from ANY state whether it be Georgia, Texas, Wyoming, Virginia, Colo, etc.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

GUT FÜR 1 GLAS BIER

They may be worth something to you. They have been to other collectors.

TAVERNE
DEGREMONT

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

While pre-statehood tokens have been my main collecting interest for many years, I am also interested in just about anything pertaining to the Alaska-Yukon-Pacific Exposition held in Seattle in 1909.

I have very little trading material other than Alaskan.

Third Street in Yankton in 1876—the main thoroughfare in territorial times, this street witnessed many parades, more commerce.

KEARNS HEADQUARTERS

While immigrants engaged primarily in agriculture, they required a center in which to buy and sell and this prompted the small towns which dot the Territory. Ipswich, above, filled the need for the German-Russians in the Edmunds County region.

I THINK THIS IS A GOOD ISSUE. AT LEAST THERE IS ENOUGH OF INTEREST TO ALL, I BELIEVE..

WE HAVE STILL NOT HEARD FROM ANYONE WITH REGARD TO WHERE THE NEXT ATCO SHOW WILL BE AND TIME IS DRAWING CLOSE. ANYONE HAVE ANY IDEAS OR SUGGESTIONS. LET'S PUBLISH THEM AND SEE WHAT THE MEMPERSHIP THINKS.

A WARNING ABOUT LATE MEMBERSHIP RENEWALS. WHEN I SEND RENEWAL NOTICES WITH THE ISSUE OF ATCO THAT IS TO BE THE LAST ISSUE OF THAT MEMBER HE HAS PLENTY OF TIME TO GET HIS RENEWAL IN. BY PUBLICATION DATE I HAVE PULLED THE MEMBERSHIP CARD AND REMOVED THE NAME FROM THE MEMBERSHIP MAILING LIST. WHEN A MEMBERSHIP RENEWAL COMES IN TWO DAYS AFTER ATCO HAS BEEN MAILED IT CAUSES ALL KINDS OF EXTRA WORK WHICH I DO NOT HAVE TIME FOR. SO, IF YOU WANT TO BE LATE FIGURE TO MISS THE NEXT ISSUE - OTHERWISE SEND AN EXTRA DOLLAR FOR FIRST CLASS POSTAGE.

NOW, ABOUT THE MEMBERSHIP DIRECTORY. I'VE BEEN WORKING ON IT BUT HAVE NOT HAD THE TIME THE LAST TWO MONTHS TO GET A LOT DONE ON IT. TOO, WHEN MEMBERS DROP OUT I HAVE DO GO BACK AND REMOVE A NAME AND THEN RETYPE THE SHEET. ANYWAY, HAVE PATIENCE AND I'LL GET IT DONE.

Dear Bill: From Dick McFerran's description of "BINKY", he sounds like my kind of guy!

Dan Mayo

(Editor's Note: Mine too, Dan. I have not heard from Binky for some time. I heard a rummor that the Mexican Government got him again for running "wet backs". He seems to get in all kinds of trouble. You probably heard that someone painted his truck pink and Binky put him in the hospital. His swamper broke his back trying to carry Binky out of a bar. So, I guess Binky really din't reform after all. He back in bars and no doubt smoking up a storm. Oh, well.)

* *

I just got a letter from Richard Green of Roy, Utah that the fantasy tokens could be on the move again. Apparently one of them is ELKO SALOON, GOLD HILL, UTAH. Such tokens, that are suspect, should be reported to ATCO so that we can warn collectors that some of the tokens from the Nevada, Utah, Californis and others, could be fantasy tokens. I don't know which ones they are. So, if anyone has a listing shoot them along so we can report them. O.K.?

Letter To The Editor:

Initially, I was furious with "Victorio's" Parody of my ATCO ad. But, then, reviewing it over several times I came to pity this obviously very frustrated "collector".

He obviously is rather unsuccessful competing in the market place either through trading or buying. He lives in his own small world thinking our hobby should be primarily an exchange of historical information and that the actual acquisition of tokens is somehow impure "investment" speculation.

He is selfish and self-centered. He admits he has not published articles in his own field of expertise-although he could write many "at the drop of a hat" (his words) - because such articles might attract new collectors and thus competition...with whom he admits he'd be impotent to compete.

Because my collecting is so broad-based (I just simply like nice old tokens), he claims I invade his and every other collectors' fields and have no right to do so. That my motives are simply "investment". Well, "pardon me" for my eagerness and sturdy wallet! I guess in his small mind all collectors should be paupers.

I've collected numismatics/exonumia over 30 years now. I've written dozens of articles and contributed to many books in our hobby.

"Victorio" seems to base all this interest in "investment". "Victorio" says that I won't sell a token if someone expresses interest...maybe not at his price - huh? Obviously this "Victorio" hasn't attended any ATCO shows, bottle shows, Chicago collectibles shows where so many others have seen my full display-for sale cases and stock books.

"Victorio" - I wouldn't have even dignified your letter tirade with a response if you hadn't parodied my ad (for which I pay which in turn helps support ATCO). But I've had an avalanche of calls urging me to respond so I have.

Alan V. Weinberg

(EDITOR'S NOTE: I READ THE ARTICLE FROM THE FUNNY SIDE AND DID NOT THINK AT THE TIME THAT IT WAS DIRECTED AT ANY ONE COLLECTOR, BUT COLLECTORS IN GENERAL. WE'VE HAD BOTH SIDES NOW. ENOUGH!)

THANKS TO ALL THOSE WHO SENT ME COMMEMORATIVES FROM THEIR AREAS. THE GIFTS WERE MUCH APPRECIATED.

KEEP THEM COMING!!!

BILL CLAPPER

LETTERS TO THE EDITOR:

Dear Bill: After reading the comments by Victorio I have decided to put in my 2¢ worth.

Tokens are like any other commodity, they will seek a level in regard to supply and demand. If an overzealous buyer or buyers plunge into the market, prices will rise accordingly. At some time that collection will be sold, and its sale will reflect a true value that the collectors are willing to pay. It would seem that quite a few collectors are still trying to pay a nickel for fifteen cents. I receive full page bids averaging one to two dollars per item, with the bidder being shut-out by more generous and knowledgable collectors.

The prices paid for a token does not necessarily reflect its value. I might pay $25.00 for one from the town where I was born just as an item of sentimental value. The expression, "if you can't stand the heat stay out of the kitchen" might well apply to prices paid by some. The "sour grapes" we hear are often reflected by a zealous collector who missed out with a low bid. Pay what an item is worth to you, don't worry about what someone else pays. There is not much chance of getting all the tokens a collector wants or feels he needs. There are always some elusive pieces that will belong to some other person. Enjoy what you collect. I have not heard of token pockets being placed in burial clothes.

Buy books as reference! They add to the knowledge of all who read. "Buy the book before the coin" has always been the advise of numismatic dealers. Many types of collecting interests grow slowly because the beginning collector has no material as a reference point- if we want our hobby to grow and be profitable we must be willing to share.

New collectors - new blood - is needed in any hobby. We should be pushing for new members, educating them as we go.

Regards, PAUL M. DILLINGHAM

WHAT'S WRONG WITH "FOR TRADE ONLY" ADS IN ATCO?

BY YOUR EDITOR

THERE IS ABSOLUTELY NOTHING WRONG WITH FOR TRADE ONLY ADS IN ATCO!

I'll use my self as an example. Say that I have a specialized field, like "house tokens" and I collect them from all states. Many times I cannot buy the tokens I want - the collector wants to trade and I have nothing to trade and so I don't get the token.

But, let's say that over the years I've accumulated a good list of scarce/rare tokens from different states. Remember that I'm collecting "house tokens" from all states. So, I run a full page ad in ATCO of some 50 scarce to rare tokens from 40 states - TRADE ONLY!! They are not for sale. It took a long time to get that type of trading stock to build my collection. Why should I sell them?

I know that if I run such a list of "For Trade Only" tokens from some 40 states that I'll have from 40 to 80 (maybe more) hunters out looking for a house token I can use so that he can get the tokens he wants. I build a group of good hunters who are looking for me. I know that my list will be looked at from time to time, even after ATCO issue is a couple months old. They are for trade only.

So, you have a list of tokens in collectors hands and you have hunters out looking for you. That is what you want, isn't it!

If I sold the tokens I'd have nothing to trade to the collector who wants to trade.

So,guys and gals, get your lists in front of the collectors who will be out doing some hunting for you.

Now, you wonder what prompted this little article, right? I won't mention the collectors name so as not to embarrass him. He suggested that "for trade only" ads should be refused by ATCO. He believed that if he could not buy tokens how else was he to get them.

My answer to him was, first, to go out looking for tokens. I used to do this before I became editor of ATCO. Now my time is restricted to the point I don't have time to go into little towns and start asking around, but I still get a few good tokens from time to time from people who remember me and my fair dealings with them.

Too, if you do go out hunting and you get some good tokens, then you have something to offer in trades.

And, finally, we have enough good dealers among us who will always run ads selling tokens. I find ATCO full of them. Hurrah for them as it give the "buyers only" a chance to buy tokens. In fact, some will sell or trade, so we have it both ways.

Let's not cut down the guy who is interested in building his collection or a "trade only" basis. O.K.?

Your Editor!

* *

PLEASE!!! IF YOU HAVE A COMPLAINT ABOUT A TRANSACTION DO NOT SEND YOUR COMPLAINT TO ME. WE HAVE AN ETHICS COMMITTEE - CHECK PAGE 2 IN EACH ISSUE OF ATCO FOR WHO TO WRITE TO. IT IS HARD FOR ANY ORGANIZATION - NO MATTER HOW LARGE OR HOW SMALL NOT TO HAVE SOME PROBLEM FROM TIME TO TIME. BUT, PLEASE USE THE PROPER CHANNEL - O.K.?

YOUR EDITOR

Bill: I don't know who Victorio is, but in my opinion his letter was a classic example of "sour grapes".

There are plenty of tokens, as well as other things I don't buy because I refuse to pay the price or can't afford to buy even when the price is fair. I don't begrudge those who can afford them.

You're the editor,however, I feel from now on no letter should be published without the true name of the author. These cowards who hide behind false names sicken me. Their letters "smack" of anonymous back stabbing. If they don't have the guts to have their true names published we don't need their comments!

Sincerely, Dan M. Jacobson

(EDITOR'S NOTE: I guess I'll finally have to agree. SO, THE POLICY OF ATCO FROM THIS DAY FORWARD WILL BE THAT WE PUBLISH NO LETTERS UNLESS THE ACTUAL NAMES OF THE AUTHOR ARE USED, WITH ONE EXCEPTION. THAT EXCEPTION IS "BINKY". HE HAS BEEN WITH US FROM THE BEGINNING OF ATCO AND WILL CONTINUE TO BE WITH US. BESIDES, MOST ALL THE ACTO MEMBERS LIKE BINKY. I DO.

Dear Bill. Enclosed is my check for renewal. As I have stated before I enjoy all of ATCO and read and re-read all of it. However, I am befuddled by the intent of some of the recent articles. Is bidding higher for a token an unethical act? Is selling a token for more than you paid for it something evil? If I think of myself as a pioneer in some field does this give me the right to crucify anyone who dares to infringe in this area? There may have been valid points that I didn't understand but not signing the article doesn't give it much credit.

I really enjoyed Rhodehamel's article on Post Traders.

Regards, Robert K. Hays

(Editor's Note: Thanks for the comments and questions Robert. I think you got your points across!

Gentlemen: I'm thrilled with ATCO. I tried my first mail bids with your April issue - - and, guess what? I won!!! Maybe "won" isn't the right word, but anyhow, I got what I bid on. Now, I've sent off a couple of bids on the May issue; I'll see what happens. Whatever--- I want you to know I'm having more fun than a barrel of monkeys with the ATCO sales, and am sure glad I joined.

Arlene Gilbert

This list is presented to ATCO members in hopes they may discover one of these names among their maverick tokens.Gilbert J.Pedersen,original researcher of Arizona sutlers and post traders in archives and early newspapers,added his information to names gleaned from business directories.There are some conflicts.

Sutlers were recognized in Arizona until 1871 after which post traders were selected in Washington,D.C. for the military posts.From 1876 to 1893 the post traders were picked by the officers of the fort.After 1893 the military used the canteen or post exchange system.

The sutler token discovered at Camp Willow Grove(1867-69) reads "S.T.-SUTLER.-25.C" and is believed to have been issued by Samuel Todd whose son Robert is later at Fort Mohave 1871-2.

The "POST TRADER-FORT-BOWIE-A.T./GOOD FOR-ONE-DRINK" brass token was issued by Sidney R.DeLong in the 1880's. Samuel W.Cowles and William S.Barnum issued brass 12½¢ tokens from Fort Apache. W.V.Wood of Camp Thomas and San Carlos used brass drink tokens similar to the N. & S. (Norton & Stewart of Ft.Grant) style. All of the above tokens are very valuable except the N.& S.

INDEX TO TAMS-LISTED MAVERICKS

The latest revision of RUGGERI'S INDEX TO TAMS-LISTED MAVERICKS is almost off the press. I expect to start mailing out copies in July. This time around, the Index is in two volumes. The first is the Alphabetical Index, the second is the Numerical Listing. The volumes can be ordered separately, or as a set.

Volume I is the latest revision of the Alphabetical Index to TAMS-listed Mavericks. It consists of 226 pages and includes mavericks listed in the TAMS JOURNAL through the February, 1986 issue. Space is provided for adding attributions as they are reported.

Volume II is a reprinting of all mavericks listed in the TAMS JOURNAL through the February, 1986 issue. This numerical listing has been added to eliminate the need to refer back to the Journals for a complete description of the mavericks. The master for this volume is presently being prepared, and it appears that it will consist of about 300 pages.

The two volumes are being issued in an unbound, loose-leaf format to permit additions and to permit the buyer to supply a binder of his (or her) choice.

A price has been established for Volume I. However, the price for Volume II will not be established until the master copy has been completed. The price for Volume I is $19.00 per copy, postpaid and insured. During this inital announcement the two volumes are being offered for $32.00 postpaid and insured. This price applies during May & June only. By July 1st, the price for Volume II will be established and will apply thereafter.

As in the past, the number of copies of the Index will be limited. The last edition was sold out in 6 months. To be sure you get your copy, send a check for either $19.00 for Volume I, or $32.00 for both volumes (to be mailed separately).

OREGON AND WASHINGTON STATE

TOKEN DEALERS AND COLLECTORS alike will be glad to learn that I have compiled a town token list for both the state of OREGON and for WASHINGTON State.

The WASHINGTON state list has over 730 listings including military and town error tokens. All towns listed have a code stating if the tokens from that town have a town name only or if the state is also printed on the token. A code is also used to determine MAVERICKS, WOOD, PLASTIC or MODERNS. A rarity scale is also listed for each town.

The same code and rarity scale is used for the state of OREGON tokens which lists over 550 tokens which includes MILITARY and town errors.

Why pass up the purchase of tokens from Oregon and Washington States while searching for the ones you collect just because you have no facts as to their value, when you could be earning cash for other purchases by buying and selling scarce tokens from these states/

PRICES (which includes postage)

WASHINGTON STATE	$10.00
OREGON STATE	8.00
Both states	$17.00

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.

Third Street in Yankton in 1876—the main thoroughfare in territorial times, this street witnessed many parades, more commerce.

JOHN KEARNS HEADQUARTERS

While immigrants engaged primarily in agriculture, they required a center in which to buy and sell and this prompted the small towns which dot the Territory. Ipswich, above, filled the need for the German-Russians in the Edmunds County region.

NOTES FROM THE EDITOR:

YOU GUYS DID IT TO ME AGAIN. YOU DEADLINED ME SO BADLY THAT IT IS A WONDER THAT I GOT ATCO READY FOR THE PRINTERS IN TIME. A COUPLE GOOD ARTICLES WERE LEFT OUT AGAIN BUT WILL BE IN THE NEXT ISSUE. ONE MEMBER HAS STUFF SPREAD ALL OVER ATCO BECAUSE TIME AND SPACE WOULD NOT ALLOW ALL HIS ADS TO BE ON TWO PAGES AND IN ORDER.

WHAT ABOUT ATCO'S TOKEN MEET?

TIME IS GETTING AWAY FROM US AND WE HAVE STILL NOT FOUND ANYONE WHO WILL HOLD THE MEET. I THOUGHT WE HAD OMAHA BUT THAT FELL THROUGH - BUT COULD BE THERE NEXT YEAR. SOME OF YOU GUYS TALK TO CHUCK LITTLEFIELD AND SEE IF HE WILL PUT THE SHOW ON IN ST. LOUIS AGAIN. HE DID A HECK OF A JOB WITH THE LAST SHOW. SOME OF YOU GET ON THE PHONE!!

WHY AREN'T WE TRADING MORE????

YOU KNOW, WE BUY AND SELL TOKENS AS WE CAN SEE FROM THE ATCO PAGES, BUT VERY FEW TRADES ARE MADE THROUGH PAGES OF TRADE LISTS. YOU KNOW, A GREAT PART OF COLLECTING IS THROUGH TRADING. AND, HOW ARE YOU GOING TO TRADE IF NO ONE OFFERS TRADES??? WHY DON'T SOME OF YOU RUN HALF PAGE OR PAGES OF TRADES AND LET'S GET SOME COLLECTING ACTION GOING??????

THERE WAS A TIME WHEN THAT IS ABOUT ALL I USED TO DO. WHEN I HAD FREE TIME I WOULD GO INTO SMALL TOWNS WITH SAMPLES OF TOKENS AND KNOCK DOOR-TO-DOOR. I GOT RESULTS AND THE END RESULT WAS I WAS ABLE TO TRADE WITH A GREAT NUMBER OF COLLECTORS. ALAS, ALL THAT IS GONE NOW SINCE I BECAME EDITOR OF ATCO. BUT, YOU OTHER GUYS CAN DO THIS AND YOU WOULD BE SURPRISED HOW THE INTEREST OF MANY COLLECTORS WOULD REKINDLE!!!

WHICH REMINDS ME, BECAUSE I CAN'T GET AWAY ANY MORE TO FIND TOKENS I STARTED COLLECTING COMMEMORATIVES OF COMMUNITIES AND I ASKED IF ANYONE HAD ONE FROM THEIR AREA. GUESS WHAT, ABOUT 20 PEOPLE RESPONDED. DON'T TELL ME THAT THESE ARE THE ONLY GUYS AND GALS THAT BOTHERED TO PICK THESE UP. HOW ABOUT SOME HELP?????

THE AMERICAN VECTURIST ASSOCIATION WILL HOLD THEIR ANNUAL CONVENTION ON AUGUST 8,9, & 10 IN PORTLAND OREGON.
THE PERSON TO CONTACT IS: JOEL J. REZNICK, C/O ROTHSCHILD, UNTERBERG, TOWBIN, 208 SOUTH LA SALLE STREET, CHICAGO, ILLINOIS 60604. PHONE: 312/726-1300 FOR INFORMATION.

THANKS BILL, PHILIP A. LAVORGNA, VICE PRESIDENT, AVA.

Dear Bill: I had to think twice about renewing my ATCO membership. Last month I bought a fake Idaho token for $50, and a $50 bottle. Anyway, I got my $50 back but had to go to Idaho to get my bottle back. What puts me out most is I'm sure the person knew it was a fake when he traded it to me. I'm just lucky I talked to someone here that was aware that the token was a fake. Anyway, I'll try again for another year.

Don Keener

(Editor's Note: Thanks, Don. We need to know about these suspect tokens and we need to publish a list of those that are suspect. There is nothing wrong with publishing a list of "SUSPECT" tokens. We are not calling them fake or fantasy tokens - just "suspect"! At least, then, a collector knows that there is some question about the token or tokens and can buy accordingly.

DEAR BILL: The 1907 TENNESSEE KU KLUX KLAN MEDAL SEEMS TO BE POPPING UP FROM TIME TO TIME IN ATCO AND ELSEWHERE. NOT ONLY IS IT A FANTASY PIECE, BUT THE KLAN WAS NOT AT ALL ACTIVE ANYWYERE IN 1907. IT DIED AFTER RECONSTRUCTION AND WASN'T RESURRECTED UNTIL 1915, I BELIEVE.

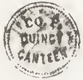
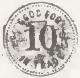
NEW MILITARY FIND - Bill Massey





Several months ago I obtained the pictured token from a friend in Quincy, Illinois. At the time, I was doubtful that it was actually from Quincy, since nothing seemed to fit. The only military installations there are the Illinois Veterans Home, formerly the Illinois Soldiers and Sailors Home, and a small Coast Guard post on the Mississippi River.

Subsequent correspondence with Carl Landrum, noted Quincy historian was more promising. He told me that the barracks, or dormitories at the Soldiers Home were actually formed as companies, and that there was, indeed, a Company F, though nothing could be learned about a canteen.

Recently I obtained a second copy of this brass token that was dug in a city park very near the home. This convinces me that this piece is definitely attributable to Quincy, Illinois, and a military item.

Dear Bill,

Sorry. Intended to enclose the rubbing of the Gohn token, with the previously sent notice of Bob's death - just in case you would want to include it with the article. That is, of course, assuming that you decide to print it, at all.

Token is Aluminum, 22.0 mm x 30.6 mm: ROBERT E. GOHN/ CIGARS/ &/ CANDIES; Rev. GOOD FOR/ 12½/ CENTS/ IN TRADE (Virginia City, MT)

Think it was a good decision to avoid printing anonymous letters in the newsletter. It was too easy for someone to take a "jab" at someone else without accountability. No one deserves that kind of treatment. Especially so when it comes from the poison pen of "sour grapes".

Also, agree with the 'tokens for trade, only' philosophy. Everyone has the right to dispose of his/her tokens in any way that pleases them. I have a lot of problems trying to come up with trades, too. Usually, I just avoid trying to acquire the pieces which are offered for trade only but there have been times when I have become involved in a three-way trade - in order to add a diffucult token to my collection. Generally, I have found that (if one is very patient) another piece will become available - eventually.

Think your doing a fine job with the newsletter. How about letting us hear how the pledges and/or cash contributions for a word processor are doing?

Sincerely,

Glenn A. Rome, ATCO #55

(Editor's Note: Thanks! We are just under $200 for the word processor. I have not been pushing it in that I've already asked for other things and I hate to be an editor who alway has his hand out. It would be a great asset to ATCO though! Whoops, should not have said what I said. I always have my hand out for town and state commemoratives. HA!)

ROBERT E. GOHN

It is with sadness that I report the passing of this legendary figure in Montana token collecting.

"Bob" Gohn was born and raised in, turn-of-the-century Virginia City, Montana. A son of the town's butcher, he was a true example of the pioneering spirit which made that city one of the great settlements of the early west.

While still a young man (probably in his 'teens) Bob fell victim to an accidental blast which left him disfigured and partially blind. Despite his handicap, he went on to become one of Virginia City's leading merchants and benefactors. Though the blindness became total, in later years, Bob continued to serve the public, from behind the bar at "Bob's Place", and to take an active part in the city's social and civic affairs until his death, at the end of May.

The many Montana token collectors who made "pilgrimage" to Virginia City, to meet Bob, will remember him as a cordial and generous host with a keen wit. He was well traveled and had a fantastic memory. And - he enjoyed conversing, with anyone, about events which had occurred during his more than fifty years as a tavern-keeper, in that city.

Though Bob Gohn had been an acquaintance and friend to members of my family for more than three-score years, I did not meet him until 1960 when I made a visit to one of my boyhood homes, adjacent to the "new" Quake Lake and some 30 miles from Virginia City. I was not a token collector, at that time, but Bob's enthusiasm, and knowledge, on that subject, must have "rubbed off". Several years later, other collectors would awaken the memory of that meeting - and the latent desire to collect such things.

He had collected Montana merchant tokens from the '30s to the '60s, - long before that pursuit became a popular hobby. He believed that he had an example of every Virginia City token known, in his collection, at one time. During my last visit with him (1983) he confided that he had sold the bulk of his collection, some 20 years before, but he did not reveal the name of the purchaser.

Bob's own, oval shaped, aluminum, token is a familiar one - to Montana token collectors. When it was made (probably, in the 1940's?) "Bob's Place" was at a different location than the familiar establishment that present day patrons and visitors know. He moved the business, "just down the street", sometime in the 50's. The token has never been easy to acquire. He sparingly doled out examples, from his own small hoard, to collectors and friends (making certain that no one received more than one example!) for nearly 40 years. I received mine, in 1983 - in exchange for one of my own, brass, calling-card tokens.

"Bob's Place" has been sold to a commercial restoration group and will continue in business during and following restoration. Hopefully, it will serve to commemorate the memory of this fine gentleman, in some way.

For further research; the local museums, in Virginia City, have a wealth of photographs and information on the Gohn family.

SOME OF YOU COLLECTORS ARE GOING TO BE IN TROUBLE!!! THERE IS NO EXCUSE FOR THE STEALING OF MANHOLE COVERS FOR YOUR COLLECTIONS - - YOU CAN BUY THEM! LET'S NOT BE OVERZEALOUS IN OUR COLLECTING - O.K.?

60 manhole covers are stolen

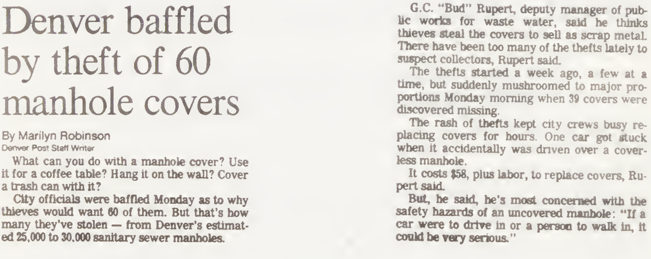
DENVER (UPI) — Public works officials say someone stole 60 manhole covers, weighing up to 170 pounds each, from city streets during the last week.

George C. Rupert, head of Denver's waste water division, said he believes the thief must have taken the covers to sell as scrap metal. There were too many taken in a short time for the person to have been a collector, he said.

Thirty-nine of the covers were stolen last weekend. One car got stuck in the street when it drove over a coverless manhole.

The city uses two kinds of covers for its 30,000 manholes — aluminum ones weighing 45 pounds and costing $58 and cast iron covers weighing 170 pounds and costing $39.

AND, CHAS CARTER OF DENVER SENT THE FOLLOWING ARTICLE FROM THE DENVER POST, DATED APRIL 15, 1986:



Denver baffled by theft of 60 manhole covers

By Marilyn Robinson
Denver Post Staff Writer

What can you do with a manhole cover? Use it for a coffee table? Hang it on the wall? Cover a trash can with it?

City officials were baffled Monday as to why thieves would want 60 of them. But that's how many they've stolen — from Denver's estimated 25,000 to 30,000 sanitary sewer manholes.

G.C. "Bud" Rupert, deputy manager of public works for waste water, said he thinks thieves steal the covers to sell as scrap metal. There have been too many of the thefts lately to suspect collectors, Rupert said.

The thefts started a week ago, a few at a time, but suddenly mushroomed to major proportions Monday morning when 39 covers were discovered missing.

The rash of thefts kept city crews busy replacing covers for hours. One car got stuck when it accidentally was driven over a coverless manhole.

It costs $58, plus labor, to replace covers, Rupert said.

But, he said, he's most concerned with the safety hazards of an uncovered manhole: "If a car were to drive in or a person to walk in, it could be very serious."

ALASKANA WANTED

While pre-statehood tokens have been my main collecting interest for many years, I am also interested in just about anything pertaining to the Alaska-Yukon-Pacific Exposition held in Seattle in 1909.

I have very little trading material other than Alaskan.

Please describe and price. Send for price list of more common items.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

This chip was dug in a circa 1940's dump at the present location of Cashman Field. Old timers tell me there was an Ace Club located on Boulder Highway near the present day Showboat Hotel. Some doubt the authenticity because of the denom.

July 21, 1986

Dear Jack:

Got your letter today along with the two commems and offer of the Iowa Centennial 1846-1946 to boot for the Spillville, Iowa token. I talked to the guy who got this for me and he said that there are no more to his knowledge. He talked to a member of the family and so far as he knew they were all destroyed years ago.

The Oskaloosa is a round green cardboard printed token - very unusual and unique!!! I would take any four of the hardest to get IOWA Centennials on the list I sent back to you, that I marked.

I'll keep hunting for rare Iowa for you and you keep looking for Iowa Centennials for me. O.K.?

Regards,

Bill

While immigrants engaged primarily in agriculture, they required a center in which to buy and sell and this prompted the small towns which dot the Territory. Ipswich, above, filled the need for the German-Russians in the Edmunds County region.

LETTERS TO THE EDITOR:

Dear Bill: MANHOLE COVERS ARE ROUND BECAUSE: ITS THE ONLY EASILY MANUFACTURED GEOMETRICAL SHAPE THAT WILL NOT FALL BACK DOWN IN THE HOLE. TOLD YOU IT WAS A SERIOUS QUESTION!
Bill Massey

(Editor's Note - Now we know and that puts that question to sleep)

* *

I suppose that when one is involved in a hobby such as token collecting, and controversy arises, it's just a matter of time before the urge to put one's own two cents in takes over. The "raging controversy" between the affluent, aggressive buyer and the acquisitive, shoestring collector reveals not only a split among the token collectors but also a basic misunderatanding that there is a necessity for both buyers of high and modest means to guarantee a market which will prove out rarity, insure a re-sale value, and/or offer a possibility of profit due to wise buying or value of hours of research. Both time and pocket-book are the tests of numismatic (or exonumismatic) value. From my perspective as a researcher for over two decades, I see exonumia such as tokens and medals as being documents to be examined, analyzed, and utilized. They are a key to another level of knowledge. Production of information provides a basis for collecting and for others to make improvements. If the flow of information is weakened or destroyed, the charm of the material disappears along with their monetary value. All one has to do is to look at the rise and fall of the coin market.to see the forces at work which also affect the token hobby.

Fear of selling tokens because the owner doesn't know what they are or who might be willing to pay a high price, lack of willingness to share information, and a too-rapidly-rising marketplace where prices are speculative can be deadly to the hobby. One must remember that competition not only creates winners but also losers who may choose to drop out and cease funding the hobby.

Another thing that the more affluent buyers should keep in mind is that they, too, can be victimized if others refused to pay a price which will offer them a profit. It is difficult to reclaim a high bid at auction if one is reselling at wholesale price. The other method that the collector of modest means can use is the development of proprietary information. That is, acquisition of source material which is analyzed and compiled and stored. This information could simply not be exchanged or perhaps a fee charged for attribution. This would offset the character who buys a token cheaply, requests the free attribution, and then charges an amount based not simply on his original cost but for the identification of a piece, i.e., the hours of research which he did not do.

I think that the hobby will find an open, generous atmosphere is far more productive than the very negative adversary relationship hinted at in the above commentary. I also believe that open discussion is more conducive to understanding than closing issues off. This will remain a source of conflict for a long time to come. As for as conditions of sale are concerned, prospective buyers should always remember that it is the seller's merchandise to do with as he wishes and that it is the buyer's prerogative to refuse to participate.

Sincerely,

Mike Pfefferkorn

LETTERS TO THE EDITOR:

Dear Bill: The reason manhole covers are round is that; they are the only shape wherein the cover cannot fall into the hole. Think about it!!!
Best Regards, Sam Ruggeri

(Editor's Note: That is the second answer as to why manhole covers are round, so it must be true. After seeing all the publicity on man-hole covers I was going to get into this hobby right at the beginning and make a million down the road aways. Figured that if I had enough of them from this area (that no one else had) I could really make a killing. I picked a beauty and was trying to get it out of the hole when I looked over my shoulder and saw a police officer watching very closely as to what I was doing. I told him I just wanted to see what was under the hole. He informed me that unless I got my tail out of there I'd find out in a hurry as he would dump me down the hole head first. I figured I had better go. That just ruined my ideas of making a killing. That was not as bad though as the crack I heard in my back when I attempted to lift the darn thing. They are heavy. I hurt my back so bad that I couldn't even lift a tooth pick for a week. I guess I'll leave the man-hole collecting to guys like Pinky. Tokens I can handle with out hurting my back.)

P.S. On the above comments. I had so many letters with answers to the Man-Hole cover question that I could not print them all. In fact Harry Sailor was going to mail me a man-hole cover from Warren, Minnesota but it wouldn't fit his rectangular envelope. Funny, Harry, but no thanks - keep it in Warren.

Dear Bill: Here's a rather limited issue Commemorative. Accept it with my compliments. Also, here is my $20 for the ATCO word processor. If it helps keep our editor from going "goofy" near deadline time, it's well worth it. No editor, or any one man papers should be without this marvelous assistant - it's really as good as an extra person!! Can I ask all concerned ATCO'RS to make a $10 donation? It's immediate benefit will be for the care and preservation of our editor - AVOID "EDITOR FARLY BURN OUT" and make a tough job a bit easier - send your $10 (and $20's) to the Word Processor kitty.

Mike O'Brien

P.S. I agree with those who spoke out against anonymous opinion givers. If you're proud of what you think, sign your name.

(from: John Allred)

(Editor's notes: Thanks Mike. I received one other donation to the word processor too. I thanks you both!! And, many thanks for the nice commemorative. I received several from thoughtful members who dropped one in the mail to me from different areas. I've received many, many letters in my attempt to get all the memberships to run out in January and the kind comments that were made really puts a lot of energy into your editor. You have been overly kind and I want you all to know that I appreciate it. It certainly makes one want to do his best to earn that kind of praise!!! THANKS AGAIN!!!

THE ELUSIVE DIRECTORY

Besides collecting territorial,military,Indian trader,post trader,Arizona, New Mexico, Nevada, and a few other types I have for many years,enjoyed identifying mavericks.The best tool for maverick identification is the business directory.

Bradstreet,R.G.Dun,and a couple of other companys issued four editions per year.Some merchants are listed in only one edition of one year.There are also great differences in the same year of different publishers.In one comparison I did,one directory listed several towns that the other from the same year did not list,and the second one listed one town that the first one didn't! Thus one can never have too many directories.

For years I have heard that there were directories of merchants by type,but not having ever seen one I was begining to think they were a myth.Last week I was offered a directory of druggists of the U.S. for 1913.I had no idea of the value the owner put on it,but sent a check in an amount that I thought would pry it loose and it arrived a few days later.

This directory claims 45,000 odd druggists in the U.S. for 1913.It states that there are 96 in Alaska,but a count shows only 21.It leaves out Arizona from the total,but included it in the text with 81 druggists.It has many other errors,but is still very useful.

The book doesn't say if it is a first edition or not.Do any of you know of any other editions ?

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.

EDITOR'S NOTES:

I goofed on the Salt Lake City 4th Annual ATCO TOKEN SHOW. I had the wrong dates. All the information is to be found starting with page 4. Please read carefully. The Utah collectors feel that this will be the biggest ATCO show yet!!!

I am now deeply into the new membership list. There are some who did not answer my form letter about expiration dates. Those who did not get them were those who did not need to bring their membership up to January.

I want to thank those who sent contributions for the word processor. The fund is now starting to grow!!

And, I want to especially thank those members who sent me Centennials and Commemoratives for my collection. This gives me something to do in what little spare time that I have. Keep them coming.

Your Editor.

Dear Bill: (Fred Zinkann)

Dick Grinolds in his recent price list (#37) brings up a point I'd like to see discussed in ATCO. It concerns the question of hoards. What should a token collector do? Should he reveal the discovery before or as he sells the tokens? Is it ethical to feed them out slowly to maximize the price he receives for each token? And, what constitutes a hoard??

(Editor's Note: O.K., some of you guys out there let me know your feelings on this subject.)

* * *

Hi Bill:

Enclosed is my prorated membership dues $12.33 plus another $10.00 toward your processor.

With all those manhole covers missing in some of your western states don't you think that Binky could come up missing something? I'm sure at least he'd get stuck in one. If they were square and he fell in we might have a square Binky.

(Editor's Note: Binky is to busy selling ice cream. Thanks for the $10 and also for the 3 nice Centennials you sent!!!!)

SALT LAKE CONVENTION

On behalf of the National Utah Token Society I would like to invite all of our friends and fellow collectors to join us at this years A.T.C.O. Convention In Salt Lake City, Utah.

Our preperations are nearly complete. The bourse area has been reserved at the convention hotel and our initial publicity mailings have been made.

Because of the success of the America Numismatic Association's 1886 Mid-Winter convention (over 6000 attendance) and the continued success of our own and two other local shows here in Salt Lake, we this demonstrates the excelent retail market in Utah. We also feel that because of this market the A.T.C.O. convention will be successful and well attended.

We would also like to invite you to take in the many attractions of Salt Lake City, many of which are with in walking distance of the convention hotel.

Next door to the hotel and at the center of the city sits Temple Square. This ten acre block is the site of the Mormon Temple and Tabernacle.

Near Temple Square is the Mormon History Museum which exhibits examples of Mormon Money and coinage dies, along with other Mormon artifacts.

Next door to the Museum is the worlds largest genealogical library. It houses an international index containing ovr 70 million names, over 1 million rolls of microfilm, and 157,000 referance books.

A short walk also brings you to the Lion and Beehive Houses, the residences of Brigham Young, as well as the gothic style Cathedral of the Madeline. there are many historic homes built at the turn of the century in this area of the city.

The Utah State Capitolbuilding, the Poneer Memorial Museum, professional basketball and hocky, the Utah Symphony, theaters, shops, and resteraunts are all within a few minutes walking distance.

For those of you who wish to travel farther away, a 45 minute drive East will take you to the Wasatch Mountians and 7 major ski resorts.

A two hour drive to the West will take you to the gaming tables and round the clock entertainment of Wendover, Nevada.

These are just a few of the man y attractions in and aroud Salt Lake. We have included codies of the Bourse regulations,Bourse applications, and the flyer we will be distributing, in this months A.T.C.C. news letter.

We hope you will join us here in Salt Lake City October10-12 for a great convention in a great town.

Thank You

George Wilson
President, National Utah Token Society
Co-Chairman, A.T.C.O. Convention

Dear Bill:

I talked with Mike Goins "The North Houston Sack Dragger" awhile back about manhold covers. He found one at an abandoned WWI Military Post. He tried to get some help to move it out of the brush but couldn't and decided to give up collecting them as they tear holes in his sack. I wonder if a Military manhole cover would bring a premium.

I agree with Mike Pfefferkorn's letter in the August ATCO. After all historical information passed on to other collectors helps make the hobby more interesting and encourages others in the field. Without open communication in the hobby interest would drop and there would be no hobby. I have made many friends in the years I've collected and the biggest return is the trading/selling and information passed on. Friends are a commodity and among the rarest thing on earth.

Hello to the North Houston Sack Dragger.

Danny Agler

(Again, thanks for the nice Centennial, Danny. I had so many articles (letters) on manhole covers that I could not print them all. Thanks anyway guy and gals).

* * *

Dear Bill: I have just come back from the C.N.A. Convention in Toronto, Ont. and I had many token collectors who subscribe to your ATCO and find the dues per year quite a bit out of line. Anyone living in the U.S.A. have to pay $15.00 per year while a Canadian has to pay $25.00 and with our Dollar worth only roughly 70¢ American makes our dues at $35.00 per annum. Now don't you think that is a little much. Postage here in Canada is 34¢ per letter and your postage is only 20¢. There is not too much Canadian in the ATCO publication for most Canadian collectors but a few of us are most interested in all tokens. I don't know how many subscribers you have in our Canada, but you could lose most of them if this annual dues situation is not looked at. I would like this published so we here in Canada and you in the United States can stress their feelings.

Ralph R. Burry (ATCO member #223)

(O.K. Ralph, let's discuss it. FIRST, WHILE I PUBLISHED THE NEW RATE IN ATCO I HAVE NOT ENFORCED IT AND ALL CANADIAN MEMBERS HAVE BEEN NOTIFIED AT RENEWAL TIME TO SEND $15.00U.S. NEXT, ALL U.S. MEMBERS (UNLESS THEY PAY AN EXTRA $7.50) GET THEIR ATCO BY BULK MAIL WHILE ALL CANADIANS GET THEIRS BY FIRST CLASS MAIL, PLUS I HAVE TO PAY AN EXTRA 3¢ PER COPY FIRST CLASS TO SEND TO CANADA. TOO, WE DO NOT PAY 20¢ FIRST CLASS MAIL FOR A LETTER, BUT 22¢. AT $15.00 PER YEAR FOR CANADIANS WITH FIRST CLASS MAIL (WHICH PRETTY MUCH EATS UP THE MEMBERSHIP FEE) I'D SAY THAT CANADIANS ARE GETTING A PRETTY GOOD BARGAIN AND WE'D LIKE TO KEEP AND GAIN MORE CANADIANS, BUT AT NO REDUCTION TO THE $15.00 YEARLY RATE. HOPE THAT THIS CLEARS UP THE IDEA THAT CANADIANS ARE GETTING A RAW DEAL.
Your Editor)

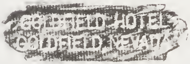
P.O. Box 2832
Fairbanks, Ak. 99707
(907) 452-6461
531 Second Avenue

We have available for trade the following item:

Brass Spittoon from the **Goldfield Hotel, Goldfield, Nevada.** This item is approximately 12 inches high. The mouth section is brass, the top of the bowl is copper and the bottom of the bowl is brass. Widest diameter is approximately 10 1/4 inches. The narrowest diameter is approximately 4 1/4 inches. Condition is quite acceptable, but if you want a "mint" spittoon, this is not for you. Numerous dents and bends, but probably better than you would expect. A rubbing of the brass plate, attached to the middle (top of the bowl) section is shown below.



58mm x 28mm

This is a very neat item that would compliment any Nevada token collection.

This spittoon is offered for trade only at this time. I am a serious collector of Yukon tokens and other Yukon memorabilia. Please let me hear from you if you are interested in this spittoon, even if you do not have anything in this area to trade at this time.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.

Ruggeri offers maverick guide

More than 11,000 maverick tokens listed in the Token and Medal Society's official publication are now listed in the 1986 edition of *Ruggeri's Index to TAMS-Listed Maverick Tokens.*

The index by Sam Ruggeri includes all maverick listings (more than 11,000) through the February 1986 issue of the *TAMS Journal.*

A new feature has been introduced in the 1986 edition. Instead of referring the user back to the original issues of the *TAMS Journal* for a full listing of each maverick, as was done in past editions, all of the listings have been reproduced and are included in the book.

As a result, the book has been divided into two volumes. The 226-page Volume I includes the alphabetical index. The 342-page Volume II includes the numerically chronological listings. Both volumes have been issued in an 8.5-by-11-inch, loose-leaf format to permit insertion of additional pages. Binders are not included, thus permitting the purchaser to select a binder of his or her choice.

The two volumes are available separately or as a set, priced at $19 for Volume I, $22 for Volume II, or $35 as a set. Prices include postage and insurance.

Orders should be sent to Sam Ruggeri, P.O. Box 155, Westerville, Ohio 43081.

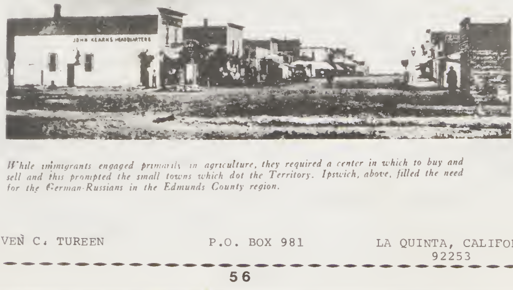
Third Street in Yankton in 1876—the main thoroughfare in territorial times, this street witnessed many parades, more commerce.



While immigrants engaged primarily in agriculture, they required a center in which to buy and sell and this prompted the small towns which dot the Territory. Ipswich, above, filled the need for the German-Russians in the Edmunds County region.

THE ELUSIVE TEXAS DEPARTMENT OF CORRECTIONS PRISON SCRIP---------
Now only a fond memory in:

"THE CA$HLE$$ $OCIETY"

by Joe Earl Hunt

THE YEAR: 1949 --- It had become realistically evident that the use of cash behind bars was no longer feasible. Hard cash was in itself a deterrent to the proper operation of TDC. Any inmate with hard money had the potential to cause untold havoc within a system that was only breaking dawn on a future that was to be beset with substantial operational hurdles. A means of exchange for inmate purchases was in a priority one category. Thus the inception of the commissary chit or coupon.

There are precious few records within TDC of the purchase and signers of the different series of coupon books. Most of my information came from the printer, who, incidentally, has no over-runs or extra coupons. The absence of these records is entirely understandable. Each series was meant to be a short term entity in and of itself, usually for about a year, although nearly two years is known for at least one series. Future needs of prison scrip collectors was hardly a high priority item with top TDC officials already burdened with an inmate population explosion, mountains of paperwork and inadequate funding. Further research is pending by the author, and with the permission of the editor may be published at a later date, should there be interest expressed by the membership.

With the cessation of the use of money by TDC inmates it was necessary to form a department that would be responsible for the supervision of what was to become a 12 million dollar a year toothpaste account. (A slight oversimplification.) That department was to be known as the ITF. The Inmate Trust Fund.

Each inmate was allowed to spend only a certain amount of money (scrip) in a particular period of time. At the present time it is $[illegible] in any two-week period. His individual account could receive money in one of basically two ways: Either friends of family sent money to the ITF in his behalf, or he earned it by making crafts or art goods that were sold outside the correctional system. The inmate could then be issued a coupon book, of which the known values were $1.00, $5.00, $10.00, $20.00 and $50.00. It is possible that other book values were in existence in the early years. The known individual coupon values are 1¢, 2¢, 5¢, 10¢, 25¢, 50¢ and $1.00. It is not known whether earlier issues contained all of these coupon values in each book. The later ones did. It is noted with interest that the later series contained only four of the 2¢ coupons, with more of each of the other denominations. Whichever of the book values that the inmate chose, that amount was deducted from his account in the ITF. However, he could not purchase more than the allowed amount regardless of the size of his account. This is the point at which changing the series became an invaluable tool. Also, the coupon was "NOT GOOD IF DETACHED" from the cover which denoted the series.

Toward the end of the purchasing period, the inmate would invariably be short of "small change" in his coupon book thus dictating that the commissary be well stocked with "change" in the form of matches, penny candy, plastic spoons, etc.

The reasoning behind a limited spending policy for the inmate was both necessary and justified. "Trafficking and Trading" is a specific offense within TDC and "evidence may include any excessive inventory of marketable items." Should an inmate be allowed to accumulate a large quantity of these items, he would have a veritable "tool" in which to extract "favors" from others within the prison unit. This statement is true of virtually anything that the ultraliberal mind can conjure into realism.

The following list consists of TDC officials and employees that signed the back of a particular series, but is not meant to be portrayed as correct or complete, either inclusively or exclusively. Some of these people signed more than one series and a few signed several, while most of them signed their signature, or [illegible] printed his name.

The above signatures represent untold millions of dollars worth of coupon books shipped from the printer and sold to inmates within the system. Upon use, the coupons would be tallied within the unit commissary, entered into a log and totalled and then sent to TDC headquarters in Huntsville for final posting against coupon purchases. In the early years, they were then burned. First, monthly and as quantities dictated, bi-monthly and then weekly. During my research period, I was told by a present TDC official that he remembers a past supervisor stating that "We sure had a good burn today!" Later, a shredder was put to use which made short work of the defenseless chit and freed valuable personnel for other duties, not to mention a couple of prison trusties standing by with a garden hose.

I would be terribly remiss with this article should I not briefly expound on the commissary transition to computerized sales since the demise of the once popular and important chit or coupon. The inmate population explosion is probably the dominating factor. With [illegible],000 plus inmates in TDC, tearing out 1¢ chits from a coupon book at today's prices should eliminate most of the necessary explanation. Space also dictates that I not delve into the subject at any great length, and it is of no great interest to most of us collectors but basically it works like this: a sophisticated photo and ID card is issued to each inmate. These cards are virtually impossible to reproduce for fraudulent purposes. The computer can "read" the card, display all account balance information and then the purchase is manually deducted from the account. A single fingerprint is also taken as an added precaution. Data processing can also produce a run that shows previous activity including name, number, amount, type of activity, date, time and officer that made the sale. All information is available to any TDC computer bank allowing constant monitoring by officials.

In conclusion, I am sure that some of you have pertinent data that I can use to update that that I already have. I need dates that match the series plus who signed each, and any other information that will help to complete the task of properly listing these coupons in their proper place in the fascinating field of collecting prison memorabilia. Please send your information to me at 2117 Bush Drive, Huntsville, Texas, 77340.

LUMBER TOKENS

By:
Gordon Lee
P.O. Box 1313
Hillsboro, Or 97123

Tokens were issued by the owners of both large and small logging and mill operations throughout the United States. Employees earned one dollar a day for a twelve hour day, working six days per week from about 1900 until about 1922. Due to the smaller salaries the larger denomination lumber tokens are scarce for this time period.

Tokens were sold to employees and also given as a draw against their wages due them, to be used in the general store for equipment and personal supplies and for meals in the cookhouses. Prior to 1922 a small fraction of the one dollar a day pay went for meals. After 1922 an average of 60¢ per day covered three generous meals. The usual items you might suspect were purchased in the general store such as items of clothing, tobacco, snacks etc..

The cookhouse was the hub of life in the logging community. If the cookhouse was set up to serve under twenty men in camp, a woman and her husband with a helper or two, often called "bullcooks", "flunkeys" or "cookees" handled the cooking and serving. If the workers numbered in the hundreds, a staff of dozens of men and women carried out the task. The cookhouse bakers were very popular with the kids and employees of the camp alike turning out hundreds of doughnuts, cakes, cookies and pies. Until 1915 the cookhouses had a steadfast rule which said only single women could be employeed. After that time a few married women were hired.

There were three important people in a logging or mill camp. First the owner, then the foreman, and then the cook. Both men and women were hired as cooks. A bad cook was called a "Boiler". On rare occasions the food steward would find hotcakes nailed to his office door. He could take a hint!

Meals were served on long tables covered with oil cloth. Etiquette took a back seat in the cookhouse. While no reserved seats were there,some of the men had places where through habit they sat, and no one dared to sit in that place. Now and then a newcomer would sit down and refuse to move and there would be a fist fight over the matter.

Waitresses worked seven days a week for five weeks before earning a day off which was usually on a Sunday They received thirty dollars a month, including board and room.

A waitress usualy was assigned to serving about 40 men. The girls worked from 6:00 A.M., when they set up the tables, until 7:00 P.M., except in the summer months working until 9:00 P.M.. Waitresses free time was spent writing letters, reading, singing or playing games. Dates were generally reserved for Saturday nights. In those camps where the girls lived above the cookhouse they were restricted with a time limit. At an appointed hour every night the outside doorsof the cookhouse were bolted.

When the whistles blew for meals and the familiar cry "COME AND GET IT" heard, the men were more than ready to quit work and eat a big meal. Even the big work horses would stop in their tracks refusing to take another step until their harnesses were unbuckled allowing them to head for the barn. Men would rush for their places at the tables when the big doors of the cookhouses were thrown open, taking up their steelware - knife, fork and spoon, dish up their food and eat all they wanted. The tables were set "family style" with heaping bowls and platters of food. The waitresses were kept busy rushing to the kitchen and bringing back refills. A man never went away saying he could have eaten more. The main part of the meal was meat, with potatoes and gravy, and plenty of vegetables, fresh baked bread, coffee and always followed up with a large piece of pie or cake. Everyone dove into the food and ate quickly. Rarely was food passed person to person (ie: the boardinghouse reach).

After the men had eaten, they were in a happier spirit, talking and laughing in a boisterous manner. The waitresses took the jests and laughter along with the men. The waitresses loved jokes and they had many played on them. The girls were often targets for jokes. Sometimes they returned to the kitchen to find a soup ladle hanging from their apron bow. They had ways of getting even. When a patron was particularly troublesome, the girls eagerly waited to play a trick on them. Cups were always turned upside down over the saucers to keep them free from dust or insects. One of the tricks was to fill a cup with water and invert it over the saucer. As it was picked up by the unsuspecting victim, he would receive a lap full of water. Occasionally, the wrong fellow would receive the cold bath.

The evening meal sounds like something I would love to do. What a way to spend a 25¢ lumber token..............

It is with great trepidation, Bill, that I submit the enclosed article for your editorial consideration. I know the monsters that resulted from a simple ad for manhole covers, and realize that some of our members in weird standing might go beserk over this new and practically virgin area of collecting. However, I also feel it my duty to share this information.
(This is an excerpt from an article entitled "Societies" from the current issue of the US Air magazine.)

Ron Anjard comes across as a decent, upright citizen. He holds a Ph.D. in engineering, speaks like the educated man he is, and works as the director of quality control for a well-established, high-tech corporation. So how come he collects bricks?

Check that. He doesn't just collect bricks; he *lives* bricks. He sends them through the mail. He writes articles about them. He travels thousands of miles to attend brick swap meets. And, not least, he is the founder of the International Brick Collectors Association.

"Most people think we're strange," he confesses, "but after a while, they start appreciating what's there, the history and all."

There is indeed quite a lot of history in bricks, although its general appeal might best be described as, well, limited. Still, for those interested, Dr. Anjard is willing to recount some of it.

He tells how Nebuchadnezzar, the ancient king of Babylon, had his name imprinted on bricks made for his construction projects. In Kansas in the 1880s, the state secretary of health authorized the marking of bricks with the slogan: "Don't spit on the sidewalk." A brick manufacturer in Illinois 60 years ago began making bricks with a raised likeness of Abraham Lincoln, but this caused the bricks to stack unevenly, so they were discontinued.

"I have a 15th-Century brick from a temple in India," Anjard says, "but there's no marking on it. I happen to know that it really came from an Indian temple, but most people couldn't distinguish it from a brick in their neighbor's backyard."

There's not much money to be made in collections of this sort. The "Don't spit" brick is worth about $10, and the relatively rare Lincoln brick fetches a less-than-staggering $75. So why bother?

Anjard says that bricks are collected more for their historical and curiosity interest, and that their cash value is almost incidental. But regardless of how much money they are worth, bricks, for some inexplicable reason, attract collectors. To better focus this unorganized brick brotherhood, Anjard founded his group in January, 1984. There are now more than 200 members worldwide, with a board of directors, a historian, a librarian, and a monthly journal.

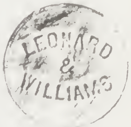
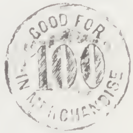
AN ELUSIVE MAVERICK

SAM MICHAEL

Attributing maverick tokens can be without doubt the most enjoyable part of collecting tokens for me. However, one token in my collection has remained an ellusive mystery for some time





Found under floorboards of a buidling during the demolition of the town of Sonora, Arizona (which is now part of an open-pit mine), the token reads: Leonard & Williams/Good for $1.00 in Merchandise, Rd. Aluminum, 35mm.

The only mention I have found of Leonard & Williams is from the July 1884 Bradstreet directory of Arizona Territory. They are listed as Post Traders in Navajo Springs, A.T. There is no mention of Leonard & Williams after this year. Since this is much too old for the token in question, is this the same Leonard & Williams? If so, why is there no record of them after 1884? The Apache County Recorder in St. Johns, Arizona, could not shed any light on Leonard & Williams other than the Post Trader deeds of 1884.

I would appreciate hearing from any reader who could help in attributing this token.

WE DISAGREE

Mail order deception and fast buck artists' have infiltrated the hobby, prompting strong concern So much so that many collectors have had their perspectives clouded and now lump all hobby publications into that "soiled" category

Well we disagree! Because at NUMISMATIC NEWS, we take special pains to protect the interests of our valued subscribers

And we do it constantly

To begin with, not just anyone can utilize our pages NUMISMATIC NEWS advertisers must pass a strict screening policy And, to continually affirm advertiser integrity we spend thousands of dollars annually conducting an ongoing "blind testing" program, and recognize solid advertising practices with our own seal of approval It's the Krause Publications' Customer Service Award, a symbol respected industry-wide

Others may talk a good game but at NUMISMATIC NEWS it's a solid policy of action that keeps us standing out above the rest That's why we disagree with those who condemn all numismatic advertising You can rely on NUMISMATIC NEWS to provide a favorable climate for both buyer and seller One that fosters a fair exchange — every time you do business through our pages

ALASKANA WANTED

While pre-statehood tokens have been my main collecting interest for many years, I am also interested in just about anything pertaining to the Alaska-Yukon-Pacific Exposition held in Seattle in 1909.

I have very little trading material other than Alaskan.

Please describe and price. Send for price list of more common items.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.

Third Street in Yankton in 1870—the main thoroughfare in territorial times, this street witnessed many [illegible] more commerce.

JOHN KEARNS HEADQUARTERS

While immigrants engaged primarily in agriculture, they required a center in which to buy and sell and this prompted the small towns which dot the Territory. Ipswich, above, filled the need for the German-Russians in the Edmunds County region.

Notes from your editor:

FIRST: Don't forget that the next issue is the big double issue: DECEMBER/JANUARY and my vacation time after the issue is out. Let's make it a big issue.

SECOND: At long last, the Membership is almost completed. Everything is typed and ready except the listing under the various categories, such as: Lumber, Saloons, etc. The numerical list is typed, the master list is typed and the listing under the "STATE" interests are typed. All I have left if the category listing.

The deadline for ads will be the 15th of November. Those who have not sent ads are missing the best place to advertise. An ATCO issue is laid aside after it is read, but everytime someone gets a token he would trade he is in the membership list. It is no doubt read more regularly than all the ATCO issues in a year. We need the advertising to print the list, too. Rates: $150 for a full page. $75.00 for a half page and $37.50 for a quarter page. I'll lay your ads out for you if you let me know what you want in them.

We have some good articles for the next issue and if others will send in one page articles like you find in this issue they will be most welcome and of great interest to the readers. Many of you would like to write articles or letters regarding a subject. Do it now and get it in to me.

ATCO -'86 SALT LAKE CITY MEET

by Alan V. Weinberg

Well, I'm just back from our Annual gathering/bourse.

I had mixed feelings about going. The "talk" was not positive - a lot of people weren't planning on going. There was a late switch in scheduled dates. Flights were expensive and the location - UTAH - was not "central" to token collectors. And bourse fees were very high for ATCO shows.

Finally, the latest ATCO issue, preceding the convention, contained no display advertising for the show and only a line mention on the front cover. Inexcusable, particularly considering the repeat full page ad of the IKO-TAMS October show for the months preceding that show (a particularly well-run and enjoyable show).

So, I hadn't planned on going 'TIL the last minute. I'm glad I did. While it wasn't a match for the sold-out bourses and heavily attended St. Louis and Denver ATCO shows, it was worth while attending. Under the "last minute" circumstances and the reluctance of others to host it, Salt Lake City's Bob Campbell did a fine job.

Room rates at $39.50, a well-lighted bourse and decent security, a reasonably full bourse and centrally located in delightful SLC made for a worthwhile show.

I saw the venerable Dave Freed and Charles Carter (2 of our 3 senior members - Fritz, where were you?) Greg Manos, Mr. & Mrs. George Hosek, Mr. & Mrs. Gary Young, Mr. & Mrs. Mike O'Hara (Mike had some really good tokens in his bourse), Mr. & Mrs. Loren Cranson, Bob Spencer, Dick Ainsworth, John Hamilton, Jack Harvill, DeKelsey, Jim Mabry, John Gold, Doris Wietrick and so many others too numerous to mention.

I acquired a beautiful Fredericksburg, Texas saloon pictorial. Merlin Bondhus got a superb Basin, Wyoming Good-For mirror and an encased I.H. cent good-for from Victor, Colorado. Bill Waken (and his charming wife) scooped up available Masonic Chapter Pennies and showed me a beautiful Helena, Montana GF mirror (alas, not for sale). Ray Mortimeyer added 30 new Missouri towns to his collection. Lance Johnson a beautiful Helena, Montana brewery tray. Sam Michael (there with his cute wife) unveiled his new Arizona token book, fresh from the printer. It is a quality product with many rare tokens clearly plated, marvelous "period" photographs at a most reasonable $10.00. An obvious "labor of love". Get it - it's indispensable to your library!!!

The hobby owes a debt of gratitude to host/organizer Bob Campbell. George Hosek is considering an Omaha location for the next year's ATCO MEET. Let's give him our support and feedback so a great show can be planned well in advance.

Editor's notes: First, sure am sorry I could not get to the ATCO meet in Salt Lake City.

Next, IKO-TAMS ads were paid for by IKO-TAMS and were ran as they scheduled them. Had we had more time we might have ran more ads for the Salt Lake Show, but the previous issue had a big four page ad and those that were going, went. Those who could not go, didn't. I did not see a need for more advertising, although I had not objection to it if Bob had requested it.

AND, MANY, MANY THANKS TO YOU BOB CAMPTELL!!!! I'm sure glad that the show was a success.

NOW, LET'S GET TO PLANNING NEXT YEARS SHOW WELL IN ADVANCE SO WE HAVE TIME TO DO ALL THAT IS NECESSARY FOR SUCH A SUCCESSFUL SHOW.

IN OTHER WORDS, GEORGE HOSEK, LET ME HEAR FROM YOU AS TO YOUR INTENT TO HANDLE NEXT YEARS SHOW - O.K.?????? OMAHA IS CENTRALLY LOCATED, EASY TO GET INTO BY AIR AND THE MOTEL ACCOMODATIONS ARE REASONSABLE AND PLENTIFUL.

LETTERS TO THE EDITOR:

Dear Bill: One of our ATCO members passed away in Boise, Idaho, September 26, 1986. John H. Cooper was 77 years old and an active person in tokens. He ran Boise's first coin shop. Most recently Cooper and Wally Waters ran "JHC Collectibles" which I believe Wally will continue to run. I am not certain of the medical Diagnosis (Emphysema, probably), but cigarette smoking was the cause of death.

JOHN MUTCH.

Dear Bill: Manhole cover collectors are a bit off-center, so let's not put brick collectors in the same category.

I've been collecting bricks since 1976, and there are probably other ATCO members that do the same thing. There are many other valuable bricks, not mentioned in article that Bill [illegible] submitted, and various pictorials. I have an extra "Don't Spit On The Sidewalk" brick if anyone wants to trade. I have several hundred different bricks. Just ask Lee [illegible] if it "tain't so". He is always telling me that I have a few bricks loose.

TOM WALL

(Editor's Note: Nice hearing from you Tom. As I recollect the last time I talked to you personally was about 15 years ago in St. Louis when we used to trade tokens. Hope we live long enough to do some more trading. Manhole cover collectors like "Binky" are liable to bounce a brick off your head sometime when you are walking down the street. I'd check carefully before crossing a street if you see a big semi-truck in the area. It might be Binky!

BILL: Please mention my catalog effort for Delaware tokens. I only have about 325 LISTED SO FAR. While Delaware is a small state with a small number of known tokens, there are probably many ATCO members who have a token or tokens but just don't think that their holdings are important. If we all pitch in we can have a first-rate catalog. February 1987 is the projected cut-off date, so, PLEASE LIST WITH ME NOW!!!! THANK FOR YOUR HELP!!!

BOOK REVIEW

UNITED STATES MAVERICK TOKENS compiled by JOHN SENA

First and most important I find that the maverick listing is one that is easy to read and maverick tokens can be easily found. I can't wait to get ATCO in the mail so I can start my own little search through my mavericks.

This book contains hundred and hundreds of mavericks / location and again as I said, easily found.

YOU CAN ORDER FROM: JOHN SENA, P.O. BOX 57002, TUCSON, ARIZONA 85732. $17.50 POSTPAID.

ANY ONE SEEN BINKY????

Along with ads, free ads and letters I've had five requests this month as to the location of Binky. Frankly, I don't know where he is. His feelings are easily hurt and he may just be hiding out someplace, if the "feds" have not gotten him again. He has got to learn not to run wetbacks across the border. Too, I heard that he was now smuggling oranges and other fruit in from Mexico. A collector from California heard that he was trying to take flying lessons in a big cargo plane with the intent of smuggling other stuff in from Mexico but he scared the heck out of one instructor to the degree the guy almost had a heart attack. You just can't land cargo planes on the interstates. He tied traffic up for six hours and then almost ran over a bunch of state highway patrol when he took off. I guess he scattered traffic and cars all over the place. Well, if Binkly lives, we might hear from him.

Dear Bill:

Just received the October ATCO. Another fine effort, but you didn't need to stay up all nite to finish it. One more day, or even 3 more days wouldn't make that much difference.

On page 31 Jack Glass asked about the Order of Owls. You may want to publish this information for him and the rest of the members.

The Order of Owls was one of many fraternal organizations organized in the 19th and early 20th centuries. The society was founded at South Bend, Indiana in November 1904 by John W. Talbot. By 1924 it had 2,148 lodges (!!!), called "nests", with a membership of 643,748. According to one of its leaflets, it was "a four-degree society of good fellows, who believe in love, laughter and the Kingdom of Heaven on Earth". According to its constitution and bylaws, the object of the organization is "to assist each other in business, to help each other in obtaining employment, to assist the widows and orphans of our brothers, to give aid to our brothers in any way that they may need, and assemble for mutual pleasure and entertainment." The group claimed to be the only secret society which did not claim to be a religious body. Like other such groups, the Order of Owls had its secret signs and secret grips, and used the initials O O O (which I believe I have seen on jewelry). As of 1924 its headquarters was still in South Bend. The Order still exists, with headquarters in Hartford, Connecticut and 46,779 members (as of 1972)

Now -- has anyone ever heard of the Order of Sparrows ??? I have a 5¢ token isued by this organization, but can find no information on it.

Regards,

Bruce

GOOD FOR
10¢
IN TRADE

By David Desmond

An old round aluminum token embossed: "N.H. Rivera, Newhall, Cal.", back: "Good for 10¢ in trade", proved to have plenty of history behind it. After inquiring about the token at the Santa Clarita Valley Historical Society in Newhall, I was referred to Irene Mc Kibben of Ventura, California. Irene was Nick Riviera's step daughter, and at 89 years of age possessed a brilliant memory.

According to Irene, Nick Rivera was born in San Francisquito Canyon (present day Saugus, California) in 1865. Nick opened the Palace Saloon in Newhall in the late 1880's. In later years Nick's wife ran a restaurant and laundry next door. In 1906 he left Newhall for the mining camp of Randsburg, California where he opened another saloon. Irene has vivid memories of Randsburg and fondly tells of the forbidden pastime of looking through the keyhole of the dance hall doors and watching the dancing and occasional gun play. After a few years, Nick left Randsburg for the mining boom in Searchlight, Nevada and started a saloon. The boom was short lived and Nick returned to his Palace saloon in Newhall, which eventually closed with prohibition.

Nick died in 1926 when he fell from his horse half way between Newhall and San Fernando. Most of Nick's family and relatives perished in 1928 when the St. Francis dam collapsed above the family home in San Francisquito Canyon killing them and over four hundred others in California's worst man-made disaster.

Dear Bill:

I'm enclosing the names and addresses of two collectors in Poland. As many of you may know Poland does not allow its citizens to send cash out of the country, so that even if a collector wants to subscribe to a magazine or join a club he can't. So we in the U.S. and Canada have things a whole lot easier than we sometimes think. I'm putting them in the form of two ads so you can use my personal ad space for these if you think it best. Or maybe you would want to print this whole letter to draw attention to their situation.

> **POLAND collector and author of book on Poland Military Tokens wants to write and trade tokens. Mr. Wojciech Niemirycz, ul. Targowa 49/51 m.18, 03-728 Warszawa, POLAND**

> **POLAND collector of all kinds of tokens including U.S.A. wants to correspond and trade. Mr. Roman Grzegorczyn, ul. Okolna 1/10, 98-300 Wielun, POLAND**

Warsaw, of course, is the capital of Poland, and Wielun is a smaller city to the southwest. I don't know how to pronounce either collector's name in the least. BOTH WRITE IN ENGLISH. I have seen Mr. Niemirycz's book, and it is well organized with complete illustrations, rarity scale and prices. But it is in Polish! However there is a summary in english. He asks $13 a copy. Only one thing wrong with the book though, there are no rubbings of manhole covers used on the military posts. Still classified information, I guess.

I don't know how much two one year subscriptions to Poland cost, but I am enclosing $2 to pay for part of that. Maybe other ATCO members would like to kick in a buck apiece until we get enough together. If we don't, then keep the $2 as a donation to ATCO.

As usual, the best to you all

Jerry

ALASKANA WANTED

While pre-statehood tokens have been my main collecting interest for many years, I am also interested in just about anything pertaining to the Alaska-Yukon-Pacific Exposition held in Seattle in 1909.

I have very little trading material other than Alaskan.

Please describe and price. Send for price list of more common items.

Crisis Of Confidence

There is a crisis right now in the hobby [illegible]. [illegible] that results in many [illegible] collectors paying a serious price. Not only in money [illegible], but [illegible] of confidence in hobby mail order transactions.

[illegible] may pass this off as a risk of free enterprise, it is our goal to serve and protect the interests of our valued subscribers. By insisting that all NUMISMATIC NEWS advertisers pass a strict screening policy.

We further affirm the integrity of our advertisers by spending thousands of dollars annually on an intensive [illegible] testing program and recognize their reputable business practices with our seal of approval — the Krause Publications Customer Service Award.

There may be a crisis in today's [illegible] hobby, but at NUMISMATIC NEWS, we really are at work to maintain full confidence in mail order dealing by creating an atmosphere that fosters a fair exchange [illegible] in every transaction you make.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.

I recently acquired a collection of 25 old Illinois ribbons, some with badges, pins, etc. Almost all are in excellent condition and most are different. Dates range from 1[illegible]39 through 1941. Items include Elks, Gideons, Labor Union, Rotary, Marquette Club and others. A number of other old Illinois items (such as a 1916 Directory of the Methodist Episcopal Church, Mansfield, Ill.) came with this collection. If You are interested in some probably unique Illinois items, please contact me.

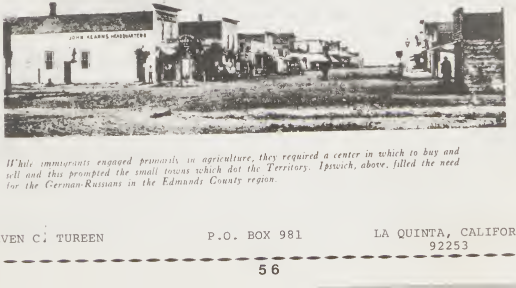
Third Street in Yankton in 1876—the main thoroughfare in territorial times, this street witnessed many parades, more commerce.



While immigrants engaged primarily in agriculture, they required a center in which to buy and sell and this prompted the small towns which dot the Territory. Ipswich, above, filled the need for the German-Russians in the Edmunds County region.

CLOSING DATE IS THE 20TH, UNLESS THE 20TH FALLS ON A WEEK END, THEN WE GO TO THE PRINTERS ON THE FRIDAY BEFORE THE 20TH.

Dear Bill: From all indications the ATCO Convention in Salt Lake City was a success. Many members were happy to finally meet the club members they had been writing to for years. It was like a "family reunion" as one coin dealer put it. Activity was heavy on Friday and Saturday but slowed on Sunday as many dealers left early. I noticed a lot of good items come through the door and most were for sale rather than for trade only. I know I picked up 8 rare Utah towns.

For the first time in ATCO history we had exhibits for show and trophies we gave out. A winners list will follow (Editor's Note: Let's make sure we have exhibits every year!!!) We also had a continuous slide show that was sent in by TAMS. It was on Soda water tokens and Introduction to Tokens and Medals. Many people watched the whole show which lasted for about 1 hour. The National Utah Token Society handled the hosting and took care of the local advertising. Plus, they made a special wooden nickel. Only 100 were made. Thanks to all who helped make the show a great success!!!

Sincerely, BOB CAMPBELL

* *

Dear Bill: Really missed seeing you at the show. It was just not the same without you. I had five Centennials to give to you. Am sending them along and hope that they are ones you can use. (Editor's Note: Yes, they were and many, many thanks!!!!!!!!)

The show was good, glad to see old friends and make some new ones too. Saw many good tokens change hands. I guess this is the forum to comment about the display judging at the show...First place ribbons went to a Stock Certificate Display, a Canadian and English MEDALS display and a Park City, Utah MEMORABILIA display. There was a terrific gold IOWA TOKEN display (Third Place) and a nice Utah Trade token display (Honorable mention). Just seems that tokens shown carry a bit more weight at a token show. In spite of that observation, we owe a big thanks to BOB CAMPELL and crew for a wonderful show!!!!

YOU GUYS AND GALS WANT TO HELP SOME HANDICAPPED KIDS?????

The Numismatic Institute, P.O. Box 7476, Chicago, Illinois 60680 can use those discarded, common tokens you have. The following letter came from the President, Ben Meyers:

The Numismatic Institute is a not-for-profit charitable organization that helps handicapped children to learn using tokens, coins and stamps. We have found from experience that the children like tokens over many other coins. Apparently, the children find the tokens to be very interesting and thenimmediately set out to find out more about the token they have received. The reports from the teachers have been very good with regards to tokens. At the present time the Numismatic Institute does not have enough tokens to meet the demand of the children. We would like to get more tokens.

Ben Myers, President.

(So, guys and gals, here is your chance to do something really nice for these kids, especially at this time of the year. Your Editor)

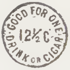
HUTTON, CALIFORNIA
SISKIYOU COUNTY
ELLIOTT CREEK MINING DISTRICT
T48N, R11W, S21, M.D.M.
Compiled by James E. Crunk



Hutton was one of those little mining towns that sprang up like a mushroom, thrived in the sunlight for a moment, then passed into obscurity. Hutton's life began in the Siskiyou Mountains of 1834 and seemed to be the last muscle twitch of the great spasm that struck the country in the mid-1800's when 'GOLD' became a religion rather than a commodity.

Joe Bar, the ultimate site of Hutton, is located at the juncture of Joe Creek and Elliott Creek in the Cal-Ore border region of the Applegate Valley. One of the miners who staked claims in this area, George Neuber, later formed a partnership with William Campbell and gave birth to Hutton shortly afterward. Before the birth of Hutton a previous attempt to open a post office, Joe Bar, had failed within four months of opening in 1904. The new office opened in 1906 with Frank Edwards as the postmaster and the office named for the local assayer, W. A. Hutton, who maintained an assay office in one room of the Edwards Supply building.

At it's peak the town had a population of 750, a hotel, saloon, ice house, barber shop, livery/feed barn, the post office and assay office, plus many tents and sheds. William Campbell was the Justice of the Peace as well as a partner in the hotel and saloon. (Talk of the fox guarding the hen house!) Local stories tell of prostitution across the creek via the 'Bridge of Sighs' and attendant rowdyism, bootlegging and gambling so bad that the State of California had to dispatch a contingent of Special Peace Officers to control the situation. During this period the town became known as Rumpus Bar and Ruckus Flats.

Neuber and Campbell owned the claims, water rights and buildings at Hutton, with the possible exception of Edwards Supply building, and when mining activity slumped,and the town started to decline, they quickly sold out. By the end of 1908 both men had divested themselves of all interest in Hutton. The decline continued until finally, in 1914, even the post office closed it's door.

One of a very few pieces of evidence that Hutton ever existed is the small brass token issued for the Neuber & Campbell Saloon. All else has faded into oblivion, even the name is gone. Today, the site is an isolated eighty acre tract, in the middle of National Forest land, that was patented in 1924 and subdivided in 1963 to become the Joe Bar Subdivision.

Tokens, do indeed, have historic tales to tell and getting them to talk is a most rewarding aspect of collecting.

A PIG IN A POKE

by Jerome Schaeper Jr.

Regarding Mail Bid Sales, it appears to me that some sellers deem it unnecessary to include such things as size and condition of tokens in their listings. I can't speak for everyone, but when I spot an item of interest I try to visualize the token, medal, badge, or whatever, and formulate a competitive bid. If size is not pertinent data, then why does nearly every token catalogue include this? As far as condition, many collectors/dealers will tell you "if it's readable, it's collectible." While this is probably true, the fact remains that condition does affect value. I have no problem with sellers that omit reference to conditions of trade tokens that exhibit "average" wear, and no serious damage (although such things as Civil War tokens, Hard Times tokens, Encased postage, etc. should require more preciseness). My concern is with deficiencies like encased coins that contain "replaced" cents, octagonal tokens that had their edge shaved down to almost round, and early pictorial tokens that are "dug" and very crusty. All of the above have been received by myself from recent ATCO Mail Bid Sales, and none contained any reference to their "problems" in the sale listing. And lest you think we are talking trivial $3 tokens, the total bids on the 3 lots was over $100. In two of the cases, a phone call settled the problem, as the seller graciously accepted an "adjusted" bid, in lieu of returning. In the third case, I begrudgingly sent payment, still feeling guilty about not returning the lot. In each case I would have still bid on the tokens, knowing of their deficiencies, at a commensurate but competitive level. The bottom line is that, in the long run, sellers that continually omit reference to serious "problems" are doing themselves a disservice. Collectors "gear" themselves to enter conservative bids in the future, expecting the worst, when in fact it could well be a real beauty!

I'm in no way promoting the "science" of MS-60, 63, etc. "garbage" that, in my opinion, is ruining the coin hobby. I'm just saying that if a token, medal, or whatever exhibits extreme wear, or has major damage, the prospective bidder should be made aware of it. Sure, the buyer always has the option of promptly returning the lot for such reasons, but why risk the disappointment, time, expense, and potential hard feelings? If any successful bidder is not happy from anything won from my sales, I sincerely want to know about it.

Before I get off my soapbox, let me say that ATCO members, as a whole, are about as serious, honest, and ACTIVE a group of collectors as one is likely to find. I've sold/traded thousands of tokens through my regular ads, and have not had one bad check, "missing" shipment, or problem that was not easily corrected. Good collecting to you in 1987, and keep them cards and letters coming!

DEAR BILL: I'm sorry to say that my cataloging of TENNESSEE token is not progressing very well. Bill Miller, who is cataloging Delaware has more tokens listed for his state than I do. I'm sure there are many people in our hobby who have tokens which I need to list.

Aside from Tip Tippy, Paul Dillingham & Bill Fowler who gave me quite a few listings, my average is about 1 token a month! Listings, over 90% of the time come from auctions or fixed price lists. As you can see my help isn't great from collectors. It's going to take 50 years, at this rate, to get a Tennessee catalog.

Please, everyone, remember that the ATCO organization is made up of people who care about tokens and token books. No matter how insignificant you think your token is, it may be one that I don't have listed.

Please help me and your hobby by listing your Tennessee tokens.

My sincere thanks to all those who have helped.

Dear Bill,

Re: Your editorial in the October issue of the ATCO newsletter. Have enclosed three commemoratives from the state of Montana, which are duplicates from my own collection.

The "official" centennial dollar was, also, issued in silver - in a limited quantity. Reverse side of this medal (centennial logo) was used on three other dollar size Montana commemoratives, that I know of. One of them has a bust of Custer which is different than the enclosed piece. This reverse design was, also, utilized for the reverse of the official 3" bronze medal and a 2" silver. The latter, too, was a limited edition. If you are planning to publish something on commemorative medals; I have examples of most of the Montana issues which I would be happy to loan for photography purposes.

Have just spent a great many hours researching Montana tokens for inclusion in Russ Rulau's new edition of Tokens of the Gay Ninetys. As a result of this; I have learned some new facts of "Calamaty Jane's" activities in Montana's mining towns, near the turn of the century. Since she spent some time (and is buried) in your state; thought you might be interested.

Martha Jane Canary (nee Burke, a.k.a. "Calamaty Jane") lived, for a time, in my home town of Livingston and made frequent excursions to the mining towns of Aldridge, Horr & Cokedale and to Yellowstone Park in order to sell copies of her "autobiography" and the popular photo of herself in buckskins, to tourists in the area. "Calamity" was an alcoholic and was destitute most of the time. As a result, she spent a great deal of time frequenting saloons where acquaintances and, sometimes, saloon-keepers would provide her with the "elixer of life" in exchange for her colorful stories (some of them fabrications) of the frontier and the indian wars. Her presence, of course, was good for business - on these occasions when she was not abusive or violent but it is known that she could be both. My grand-father (who was 21 years her junior) was present during one incident when she took to violent behavior and shot up a saloon (Bucket-of-Blood Saloon?), in Livingston. Others have related how she frequently "dressed down" fellow patrons with her own brand of colorful adjectives.

Livingston's newspapers seemed to delight in printing news of "Calamaty's" adventures, misfortunes and unorthodox behavior. They, sometimes, referred to her as "a woman in her seventies" or some similar reference to her age and/or decrepit condition. Actually, she was only 51 when she died, in Deadwood, and was buried next to "Wild Bill" Hickok, as she had requested.

Finally, in 1902, after "Calamaty" had spent a night in the Livingston jail - on a charge of being drunk and disorderly, she was provided with a rail ticket (courtesy of the city fathers) to Deadwood, S.D. - on the proviso that she not return to their fair city. She went quietly and died in the following year.

There were a great many saloons in those early coal-mining towns, in Montana, and it is probable that "C.J." had her favorite hang-outs. It always crosses my mind, though, when I handle a token from one of those towns - and from that period, that "Calamaty Jane" might have offered that same token in exchange for her favorite beverage. It adds a little historical romance to the intrigue of token collecting.

The "Bucket-of-Blood" Saloon was, probably, a pseudonym for one of many saloons, on Park Street. It was (and still is) often referred to, by that name, by the old-timers in Livingston. I have not been able to find any printed references to that particular saloon but it was described as being a second-story establishment with a somewhat "seedy" reputation. Since my immigrant grand-father (from Norway) evidently, frequented the place - and was employed as a hostler, at the local livery stable during that time, it seems probable that it was not one of the establishments which favored the city's more affluent citizens.

Aldridge, Horr and Cokedale are all ghost towns, now. It is nearly impossible to get to Aldridge and Horr without a "four-wheeler" but Cokedale is on a useable road. Descendants of some of the original owners have moved back, to Cokedale, in recent years, and built an inn and restaurant which is oriented more toward history buffs than to tourists.

Since you have not called in the pledges, for the word-processor, I shall assume that you have a ways to go, yet, before it becomes a reality. Don't forget, though, that I pledged $15 and will send it along whenever you have need of it.

In the meanwhile, if you think my computer/word-processor would speed up the effort, on the membership list, send along the work, which you have completed - together with the names which are to be included and any other information which is pertinent to this project and I shall put it on my equipment. I can keep it updated, on a monthly basis, if you will publish the status of new members, changes &c. in the ATCO bulletin, each month. I have a software system which will allow each member to have a separate file and I can utilize information, from that file, for listings, addressing &c in any order I choose. Also, would require information on the required size & format. Since I retired a couple of years ago, I, probably, have a little more time than you do. It's amazing, though, how many things one can find to do - when one has a variety of interests. Don't think I'll ever be able to finish everything which I have started but I keep "plugging" away at it. Some days I work harder and longer than when I was employed. The difference, of course, is that now - I "call the shots" and, of course, no one is paying me to do it.

Last items, on my agenda, are the problems created by a lack of complete descriptions, when listing tokens and medals. I try to collect all of the varieties of the materials in my collection. Often the pieces are not described well enough to determine whether they are the same as a piece which I already possess or whether they might, in fact, be a variety of the same piece. I realize that printed space is valuable and so I have devised an abbreviated system for describing the material in my collection. I started working with this system about 15 years ago. Now, all of the tokens and medals, in my collection, contain a code which describes the physical characteristics (i.e. material, size, thickness, shape and edge design (or lack of) and includes "descriptors" to indicate finish, color (where applicable), and holes or cut-outs (also, where applicable). Over that period of time, I have worked out most of the "bugs" and devised a chart which makes the system fairly easy to use. Do you think there would be any interest in publishing such information in ATCO? It might, at least, arouse some interest by others who would like make their input, to such a system, known. Incidentally, the system will work with ticket-like items, wooden money and coins, as well.

Along with the above, I often find it difficult to search listings for the limited material which I collect. Since most of us collect by geographical region or by topic; it would be a great help to emphasize those items, in the listings. Frequently, I just skip over those listings where no effort has been made to separate the items by geographical region or topic (or, at least, to underline the topic). I think that a good listing should look like the following, one-liners:

TRADE TOKENS:

MT, Anytown: BEN'S TAVERN; Rx: gf 5¢ it: Br21.1x1.2Rc(B), VF

(describes a Montana token which is round, brass, 21.1mm dia., 1.2mm thick, with plain edge and having a "B" cut-out.)

MISC. TOKENS & ETC.:

Mav.: Spinner: ANDY'S DINER; Rx: YOU PAY: Bz32.2x1.8Rgr, EF

(describes a maverick "spinner" token which is round, gilt-bronze, 32.2mm dia., 1.8mm thick and has a reeded edge.)

I have received some criticism, from those who are familiar with my system, for including too much information and for being to precise with measurements. However, I have found that re-manufactured and counterfeit tokens frequently have thicknesses which are noticeably different from the originals. This is true, also, for tokens which were duplicated by another manufacturer for the same issuer. Also, old-time token makers frequently rolled the material, for their tokens, themselves. As a result, older tokens tend to be of thicker fabric than more modern ones. It may even be possible, someday, to identify the maker of a particular token by the diameter and thickness of the piece - if enough data can be accumulated. For me, though, the thickness is very often an immediate clue that a piece is different from one with which I am familiar and it causes me to scrutinize the pieces more carefully. The close tolerances, in measuring the pieces, is required for differentiating tokens of similar size. I use a non-abrasive vernier caliper for making measurements to an accuracy of 1/10mm.

Sincerely,

Glenn

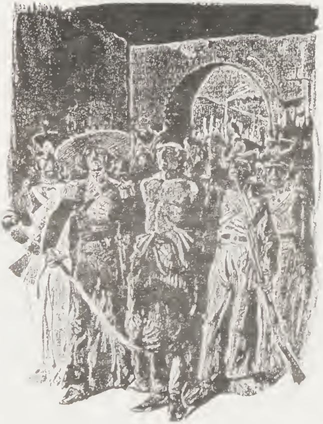
Say It Ain't So, Davy

The truth hurts, as historians discovered when they broke the news that Crockett surrendered.

When Dan Kilgore wrote a small historical book in 1978 titled *How Did Davy Die?* he was not prepared for the wrath of a generation of militant Davy Crockett fans whose minds had been made up on the subject since childhood. They had watched Crockett—in the Walt Disney [illegible]—go down fighting like a tiger.

Kilgore, who had never bothered to see the [illegible] [illegible] step the issue altogether. A tacit conspiracy to leave the myth intact held sway until 1975, when the [illegible] by the publication of Carmen Perry's translation of the diary of Jose Enrique de la Peña, an officer with Santa Anna's troops and a witness to the events at the Alamo.

With Santa Anna in Texas contained only a single page describing the events leading to Crockett's death, but the publication of the book caused a monumental stink. The mere suggestion that Crockett hadn't gone down fighting was suddenly blasphemy. One journalist said that Perry's book implied that Crockett had died a coward, "groveling in the Alamo [illegible]." Perry, who was formerly the [illegible] of the Daughters of the Republic of Texas, was harassed with anonymous letters and late-night phone calls. A story in *People* magazine on October 13, 1975, revealed the absurdity of the controversy when it placed a picture of Perry alongside one of John Wayne, who had played Crockett in the 1960 version of *The Alamo*. DID CROCKETT DIE AT THE ALAMO? CARMEN PERRY SAYS NO, the headline read. The not-so-subtle distinction between Hollywood fantasy and historical reality was lost on the press, which consistently referred to the movie versions of Davy Crockett by [illegible] Perry's book.



Crockett being led before Santa Anna: he may have surrendered, but nobody ever said that Davy was a coward.

Kilgore suffered the same sort of abuse when *How Did Davy Die?* came out. Taking a coolly detached view of the Crockett legend, Kilgore quoted sources long suppressed by the popular desire to uphold the myth, claiming that Crockett never had any intention of dying for the liberty of Texas. THEM'S FIGHTING WORDS, DAVY'S LEGEND SMUDGED, read the headline in the *Corpus Christi Caller-Times*, Kilgore's hometown newspaper. This time the outrage was widespread, as wire copy made its way to London, Mexican, and Canadian newspapers. Kilgore received letters criticizing his book as nothing more than a superficial analysis that Texans are known for and calling him everything from a mealy-mouthed intellectual who ought to have his mouth washed out with soap to an organizer of a Communist plot. One irate Crockett fan from Fort Myers, Florida, said, "We know the reason for this. [illegible] Communist [illegible]"

[illegible]

[illegible] *How Did Davy Die?* [illegible] surrendered. [illegible] World War II, two thousand men surrendered, and they're considered heroes. There's nothing wrong with an overpowered soldier surrendering in the face of all the odds."

I have very little trading material other than Alaskan.

Customer Bill of Rights

When it comes to sincere concern for the fundamental rights of numismatic hobbyists, NUMISMATIC NEWS virtually wrote the book.

And today, after more than three decades of hobby-leading publishing, we believe as strongly as ever that every mail order customer, regardless of degree of financial or emotional involvement in the hobby, has the inalienable right to fair exchange. To get what he or she pays for.

That's why NUMISMATIC NEWS advertisers are the "best in the business." They have to be. We won't have it any other way.

NUMISMATIC NEWS advertisers must pass a strict screening policy before they utilize our pages. And, to further protect the interests of our valued subscribers, we conduct an ongoing, intensive "blind testing" program.

By spending thousands of dollars annually this way, we continually affirm the integrity of our advertisers, and recognize their quality image with our seal of approval — the Krause Publications Customer Service Award.

It's a strong atmosphere of mail order honesty that this credo sets forth. One you can rely on NUMISMATIC NEWS to uphold. A true Customer Bill of Rights.

THOSE FOREIGN TOKENS ARE WANTED

Have you ever wondered about the tokens you tossed in the back of the desk, that sit in those unmarked envelopes or in ones marked haphazardly "Mexico", "Germany", or "Unknown."

They may be worth something to you. They have been to other collectors.

An average of three to four auctions are mailed internationally each year by me that chiefly list these kinds of tokens. I am one of a handful of dealers who knows anything about such tokens and can usually identify what you have and give you a sense of whether it will sell. I do regular research and publish a column in the TAMS JOURNAL on this topic which many of you have seen.

Besides collectors in the U.S. and Canada I currently have consignors and customers from Australia, Belgium, Chile, Denmark, Dominican Republic, Ecuador, France, Germany, Great Britain, Haiti, Iceland, Italy, Malaysia, Mexico, Peru, Portugal, Puerto Rico, Spain and Venezuela. More are added every week. I maintain a mailing list of more than 1200 with an active bidding contingent of about 700.

Please consider consigning your pieces to me or selling them outright. I can send you my consignment policies on request, or you can ask to be placed on the mailing list. Or just feel free to ship them.

I will be glad to identify a piece, or a few, if you enclose a stamped envelope and a rubbing. I can also give you an appraisal of your tokens' approximate worth.

The best of collecting to you in 1986.
